Professional Service Agreement PS 1159

IN WITNESS WHEREOF, the duly authorized representatives of the parties have executed this Agreement,

SIGNED on: 09/19/2007

PUBLIC BUILDING COMMISSION OF CHICAGO

Monty M. Nayler
Executive Director

Edguch Johnson
Attest:
Christopher P. Dietzler
Secretary

Patrick Engineering Inc.:

Jeffrey C. Schuh
President

County of: Cook

State of: Illinois

Subscribed and sworn to before me by Christopher P. Dietzler and Jeffrey C. Schuh on behalf of Vendor this 14th day of Sept., 2007.

Denis Hogan
Notary Public
My Commission expires: (SEAL OF NOTARY)

TERMS AND CONDITIONS

1. Definitions. The following phrases have the same meanings for purposes of this Agreement.

a. **Agreement** means this professional services agreement, including all exhibits or documents attached hereto and/or incorporated by reference herein, and all amendments, modifications, or revisions made in accordance with the terms hereof.

b. **Commission** as herein referred to shall include the Commission's Chairman, Secretary, Assistant Secretary, Executive Director, Director of Construction, Managing Architect, Project Manager, or designated consultant or consultants, acting on behalf thereof, as designated by the Commission in writing, for the purpose of giving authorizations, instructions, and/or approval pursuant to this Agreement.

c. **Contract Documents** consists of all of the component parts of the Contract between the Commission and the General Contractor for the construction and improvement of the Project including, without limitation, the general and special conditions, technical specifications, drawings, addenda, bulletins and modifications thereto.

d. **Consultant** means the company or other entity identified in this agreement, and such successors or assigns, if any, as may be authorized by the terms and conditions of this Agreement.

e. **Key Personnel** means those job titles and persons as identified in those positions as identified in Consultant's proposal and accepted by the Commission.

f. **Project** means the construction and/or improvement of the facility or facilities specified in this agreement of this Agreement.

g. **Services** means collectively, the services duties and responsibilities that are necessary to allow the Consultant to provide the Services required by the Commission under this agreement.

h. **Sub-consultant** means a firm hired by the Consultant to perform professional services related to the construction and/or improvement of the Project.

i. **Technical Personnel** as herein referred to include partners, officers and all other personnel of the Consultant, including technical typists assigned to the Project, exclusive of general office employees.

j. **User Agency** means the municipal corporation that requested the Commission to undertake the construction and/or improvement of the Project.

2. **Incorporation of Documents.** The documents identified below in this paragraph are hereby incorporated in and made a part of this Agreement. By executing this Agreement, Consultant acknowledges and agrees that Consultant is familiar with the contents of each of such documents and will comply fully with all applicable portions thereof in performing the Services.

a. **Project Documents.** The plans and specifications for the Project, to the extent that plans and specifications for the Project have been prepared, as set forth and described in this agreement (the "Project Documents").

b. **Policies Concerning MBE and WBE.** The Commission's policies concerning utilization of minority business enterprises ("MBE") and women business enterprises ("WBE"), as the same may be revised from time to time.

3. **Engagement and Standards for Performing Services.**

a. **Engagement.** The Commission hereby engages the Consultant, and the Consultant hereby accepts such engagement, to provide the Services described in this agreement, as the same may be amended from time to time by mutual agreement of the Commission and the Consultant.

b. **Nondiscrimination.** The Consultant agrees that in performing this Agreement it shall not discriminate against any worker, employee or applicant for employment, or any member of the public, because of race, creed, gender, color, national origin or disability, or otherwise commit an unfair labor practice. Attention is called to applicable provisions of the Civil Rights Act of 1964, 88-352, July 2, 1964, 78 Stat. 241 et. Seq. the Americans with Disabilities Act of 1990, 42 U.S.C. 12010 et. Seq. the Illinois Human Rights Act 775 ILCS 5/1-101 et. Seq. and the Public Works Employment Discrimination Act 775 ILCS 10/0.0 1 through 10/20, inclusive and a Resolution passed by the Board of Commissioners of the Public Building Commission of Chicago on October 1, 2004, concerning participation of Minority Business Enterprises and Women Business Enterprises on contracts awarded by the Commission. The Consultant will furnish such reports and information as requested by the Commission and the Illinois Department of Human Relations or any other administrative or governmental entity overseeing the enforcement, administration or compliance with the above referenced laws and regulations.

c. **Employment Procedures, Preferences and Compliances.** Salaries of employees of Consultant performing work under this Agreement shall be paid unconditionally and not less often than once a month without deduction or rebate on any account except only such payroll deductions as are mandatory or permitted by the applicable law or regulations. Attention is called to Illinois Compiled Statutes, 1992 relating to Wages and Hours including 820 ILCS 130/0.01 through 130/12 thereof (Prevailing Wage Act), 30 ILCS 570/1 through 570/7 (Employment of Illinois Workers on Public Works Act) and 30 ILCS 560/0.01 through 560/7 (Public Works Preference Act). The Consultant shall comply with all applicable "Anti-Kickback" laws and regulations, including the "Anti-Kickback" Act of June 13, 1934 (48 Stat. 948; 62 Stat. 740; 63 Stat. 108; 18 U.S.C. § 874; 40 U.S.C. § 276c) and the Illinois Criminal Code of 1961 720 ILCS 5/33E-1 et. seq. If, in the performance of this Agreement, there is any direct or indirect kickback, the Commission shall withhold from the Consultant, out of payments due to it, an amount sufficient to pay employees underpaid the difference between the salaries required hereby to be paid and the salaries actually paid such employees for the total number of hours worked. The amounts withheld shall be disbursed by the Commission for and on account of the Consultant to the respective employees to whom they are due.

PS1159-Patrick Engineering Inc.

d. Compliance with Policies Concerning MBE and WBE. Without limiting the generality of the requirements of the policies of the Commission referred to in paragraph 2 above, the Consultant agrees to use best efforts to utilize minority business enterprises for not less than twenty five percent (25%) for MBE and five percent (5%) for WBE of the value of the Services, in accordance with the Resolution passed by the Board of Commissioners of the Commission on October 1, 2004, concerning participation of minority business enterprises and women business enterprises on contracts awarded by the Commission and to furnish to the Commission, such reports and other information concerning compliance with such Resolution as may be requested by the Commission from time to time.

e. Delays. The Consultant agrees that no charges for damages or claims for damages shall be asserted by it against the Commission for any delays or hindrances from any cause whatsoever during the progress of any portion of the Services. Such delays or hindrances, if any, shall be compensated for by an extension of time to complete the Services, for such reasonable period as may be mutually agreed upon between the parties, it being understood, however, that the agreement of the Commission to allow the Consultant to complete the Services or any part of them after the time provided for the completion thereof herein shall in no way operate as a waiver on the part of the Commission of any of its rights hereunder.

f. Records. The Consultant shall maintain accurate and complete records of expenditures, costs and time incurred by Consultant in connection with the Project and the Services. Such records shall be maintained in accordance with recognized commercial accounting practices. The Commission may examine such records at Consultant's offices upon reasonable notice during normal business hours. Consultant shall retain all such records for a period of not less than five calendar years after the termination of this Agreement.

g. Time of Essence. The Consultant acknowledges and agrees that time is of the essence in the performance of this Agreement and that timely completion of the Services is vital to the completion of the Project by the Commission. Consultant agrees to use its best efforts to expedite performance of the Services and performance of all other obligations of the Consultant under this Agreement and any other agreements entered into by the Commission which are managed or administered by the Consultant as a result of the Consultant's engagement hereunder.

h. Compliance with Laws. In performing its engagement under this Agreement, the Consultant shall comply with all applicable federal, state and local laws, including but not limited to, those referenced in subparagraphs (b) and (c) above and in the documents referred to in paragraph 2 of this Agreement.

i. Progress Meetings. Meetings to discuss the progress of the Project and/or to review the performance of the Consultant may be scheduled upon the Commission's request, at mutually agreeable times and locations, and the Consultant agrees to cause such meetings to be attended by appropriate personnel of the Consultant engaged in performing or knowledgeable of the Services.

j. Defects in Project. The Consultant shall notify the Commission immediately in the event the Consultant obtains knowledge of a defect in the Project or circumstances which could result in a Project delay or cost overrun.

k. Performance Standard. The Consultant represents and agrees that the Services performed under this Agreement will proceed with efficiency, promptness and diligence and will be executed in a competent and thorough manner, in accordance with reasonable professional standards in the field. The Consultant further agrees that it will assign to the Project at all times during the term of this

Agreement the number of experienced, appropriately trained employees necessary for the Consultant to perform the Services in the manner required hereunder.

l. Changes (Amendments). The Commission may from time to time, request changes to the terms of the Agreement or in the Scope of Services of the Consultant to be performed hereunder. Such changes, including any increase or decrease in the amount of compensation and revisions to the duration of the Services, which are mutually agreed upon by and between the Commission and Consultant, shall be incorporated in a written amendment to this Agreement. The Commission shall not be liable for any changes absent such written amendment.

m. Copyrights. The parties intend and agree that, to the extent permitted by law, the drawings, specifications and other design documents to be produced by Consultant at the Commission's instance and expense pursuant to this Agreement (the "Work") shall conclusively be deemed "works made for hire" within the meaning and purview of Section 101 of the United States Copyright Act, 17 U.S.C. § 101 *et seq.*, and that the Commission, its successors and assigns, will be the copyright owner of all aspects, elements and components thereof in which copyrights can subsist. To the extent that any of the foregoing does not qualify as a "work made for hire", Consultant hereby irrevocably grants, conveys, bargains, sells, assigns, transfers and delivers to the Commission, its successors and assigns, all right, title, and interest in and to the copyrights and all U.S. and foreign copyright registrations, copyright applications and copyright renewals therefor, and all other intangible, intellectual property embodied in or pertaining to the Work contracted for under the Agreement, free and clear of any liens, claims or other encumbrances, to the fullest extent permitted by law. Consultant will execute all documents and, at the expense of the Commission, perform all acts that the Commission may reasonably request in order to assist the Commission in perfecting its rights in and to the copyrights relating to the Work.

Consultant warrants to the Commission, its successors and assigns, that (1) the Work constitutes a work of authorship; (2) on the date hereof Consultant is the lawful owner of good and marketable title in and to the copyrights for the Work (including the copyrights on designs and plans relating to the Work); (3) the Consultant has the legal right to fully assign any such copyright with respect to the Work; (4) Consultant has not assigned any copyrights nor granted any licenses, exclusive or non-exclusive, to any other party; (5) Consultant is not a party to any other agreement or subject to any other restrictions with respect to the Work; and (6) the plans and designs for the Work will be, upon completion of the Services, complete, entire and comprehensive. Further, Consultant agrees that it will not restrict or otherwise interfere with the Commission's future actions in authorizing the use, adaptation, revision, or modification or destruction of the Work provided that the Consultant is indemnified for any damages resulting from any such future re-use or adaptation of the Work as may be authorized by the Commission.

4. Term

a. The term of this Agreement shall begin on the Commencement Date specified in this agreements and, subject to the provisions of subparagraph (b) below, shall expire upon completion of the Services and acceptance thereof by the Commission or, if the Services are of an ongoing nature, on the Completion Date specified in such Request for Services. The Commission and the Consultant may, from time to time, by mutual agreement, extend the term of this Agreement by amending this agreements.

b. The Commission shall have the right, at any time, to terminate the term of this Agreement, with or without cause, by written notice given to the Consultant at least thirty (30) days prior to the effective date of termination. In addition, the Commission shall have the right, at any time and from time to time, with or without cause, to suspend the performance of the Consultant hereunder with respect to all or any part of the Services, by written notice given to the Consultant at least five (5) days prior to

PS1159-Patrick Engineering Inc.

the effective date of suspension. Termination or suspension of this Agreement shall not relieve the Consultant from liability for the performance of any obligation of the Consultant under this Agreement performed or to have been performed by the Consultant on or before the effective date of termination or suspension. Provided the Consultant is not in default under this Agreement at the time of termination or suspension, the Commission agrees to pay to the Consultant, in accordance with the terms of this Agreement, all compensation and reimbursements due to the Consultant for periods up to the effective date of termination or suspension. In no event shall the Commission be liable to the Consultant for any loss, cost or damage which the Consultant or any other party may sustain by reason of the Commission terminating or suspending this Agreement as provided herein; provided, however, that the Commission may, in its sole discretion, reimburse the Consultant for actual expenses approved by the Commission.

c. If the Project, in whole or substantial part, is stopped for a period longer than thirty (30) days under an order of any court or other governmental authority having jurisdiction of the Project, or as a result of an act of government, such as a declaration of national emergency making materials unavailable, through no act or fault of the Consultant, or if the Commission fails to make any payment or perform any other obligation hereunder, the Consultant shall have the right to terminate this agreement, by written notice given to the Commission at least seven (7) days prior to the effective date of termination, and shall have the right to recover from the Commission all compensation and reimbursements due to the Consultant for periods up to the effective date of termination.

5. Compensation of Consultant; Reimbursement for Expenses. The Commission shall compensate the Consultant for the Services in the manner set forth Schedule D of this agreement. In addition, the Commission shall, upon submission by the Consultant, which the Consultant may do no more frequently than once every 30 days, and approval by the Commission of detailed invoices therefor, reimburse the Consultant for all Reimbursable Expenses. As used in this paragraph, the term "Reimbursable Expenses" shall mean those expenses identified as such in this agreements to this Agreement.

6. Rights and Obligations of Commission. In connection with the administration of the Project by the Commission and the performance of this Agreement by the Consultant, the Commission shall have the following rights and obligations, in addition to those provided elsewhere in this Agreement:

a. Information. The Commission shall provide the Consultant all reasonably requested information concerning the Commission's requirements for the Project and the Services.

b. Review of Documents. Subject to the provisions of subparagraph 3 (e) above, the Commission agrees to make a reasonable effort to examine documents submitted by the Consultant and render decisions pertaining thereto with reasonable promptness.

c. Site Data. To the extent the Commission determines to be necessary for the Consultant to perform the Services, the Commission may furnish, or may authorize the Consultant to obtain from a company or companies approved by the Commission as Reimbursable Expenses: (i) a certified survey of the site or sites; (ii) information concerning locations, dimensions and data pertaining to existing buildings and other improvements; (iii) title information; (iv) information concerning available service and utility lines; and (v) results of test borings and other information concerning subsoil conditions.

d. Tests and Reports. To the extent required for the Consultant to perform the

Services, the Commission may furnish structural, civil, chemical, mechanical, soil mechanical and/or other tests and reports; however, the Commission may authorize the Consultant to procure such tests and reports from a company or companies approved by the Commission as Reimbursable Expenses.

e. Legal, Auditing and other Services. The Commission shall arrange and pay for such legal, auditing, insurance counseling and other services as the Commission, in its sole discretion, may determine to be required for the Project. Such payments shall not include legal or auditing expenses arising out of or relating to any errors or omissions, or claimed errors or omissions, of Consultant.

f. Designated Representatives. The Commission may designate, at its sole discretion, one or more representatives authorized to act in its behalf.

g. Indemnities. The Commission shall require, by appropriate provision in each contract let by the Commission after the date of this Agreement with respect to the Project that the contractor(s) and consultant(s) thereunder shall indemnify, save and hold harmless the Commission, the User Agency and the Consultant, and each of them, and their respective commissioners, board members, officers, agents and employees, from all claims, demands, actions and the like, of every nature and description, made or instituted by third parties, arising or alleged to arise out of the work under such contract, and that the contractor there under shall purchase and maintain during the life of such contract such insurance as the Commission may require.

h. Ownership of Documents. All documents, data, studies and reports prepared by the Consultant or any party engaged by the Consultant, pertaining to the Project and/or the Services shall be the property of the Commission including copyrights as described in Section 3(m) above.

i. Audits. The Commission shall have the right to audit the books of the Consultant on all subjects relating to the Project and/or the Services.

7. Indemnification of Commission. The Consultant hereby agrees to indemnify, keep and save harmless the Commission and the User Agency and their respective commissioners, board members, officers, agents, officials and employees from and against all claims, demands, suits, losses, costs and expenses, including but not limited to, the fees and expenses of attorneys, that may arise out of or be based on any injury to persons or property that is or is claimed to be the result of an error, omission or act of the Consultant or any person employed by the Consultant to the maximum extent permitted by applicable law.

8. Insurance to be Maintained by Consultant. The Consultant shall purchase and maintain at all times during the performance of Services hereunder, for the benefit of the Commission, the User Agency and the Consultant, insurance coverage as set forth in Schedule E of this agreement

9. Default.

a. Events of Default. Any one or more of the following occurrences shall constitute an Event of Default under this Agreement:

i. Failure or refusal on the part of the Consultant duly to observe or perform any obligation or agreement on the part of the Consultant contained in this Agreement, which failure or refusal continues for a period of ten (10) days (or such longer period as the Commission,

in its sole discretion, may determine if such failure is not capable of being cured within such ten (10) day period) after the date on which written notice thereof shall have been give to the Consultant by the Commission;

ii. Any representation or warranty of the Consultant set forth herein or otherwise delivered pursuant to this Agreement shall have been false in any material respect when so made or furnished;

iii. The Consultant becomes insolvent or ceases doing business as a going concern, or makes an assignment for the benefit of creditors, or generally fails to pay, or admits in writing its inability to pay, its debts as they become due, or files a voluntary petition in bankruptcy, or is adjudicated a bankrupt or an insolvent, or files a petition seeking for itself any reorganization, arrangement, composition, readjustment, liquidation, dissolution, or similar arrangement under any present or future statute, law or regulation relating to bankruptcy or insolvency, or files an answer admitting the material allegations of a petition filed against it in any such proceeding, or applies for, consents to or acquiesces in the appointment of a trustee, receiver, liquidator or other custodian of it or of all or any substantial part of its assets or properties, or if it or its principals shall take any action in furtherance of any of the foregoing; or

iv. There shall be commenced any proceeding against the Consultant seeking reorganization, arrangement, readjustment, liquidation, dissolution or similar relief under any present or future statute, law or regulation relating to bankruptcy which is not vacated, stayed, discharged, bonded or dismissed within sixty (60) days thereof, or there shall be appointed, without the Consultant's consent or acquiescence, any trustee, receiver, liquidator or other custodian of Custodian or of all or any substantial part of the Consultant's assets and properties, and such appointment shall not have been vacated, stayed, discharged, bonded or otherwise dismissed within sixty (60) days thereof.

b. Remedies. If an Event of Default shall occur and be continuing, then the Commission may exercise any right, power or remedy permitted to it by law or in equity and shall have, in particular, without limiting the generality of the foregoing, the right to terminate this Agreement upon written notice to the Consultant, in which event the Commission shall have no further obligations hereunder or liability to the Consultant except as to payment for Services actually received and accepted by the Commission through the effective date of termination. No courses of dealing on the part of the Commission or delay or failure on the part of the Commission to exercise any right shall operate as a waiver of such right or otherwise prejudice the Commission's rights, powers or remedies.

c. Remedies not Exclusive. No right or remedy herein conferred upon or reserved to the Commission is exclusive of any right or remedy herein or by law or equity provided or permitted, but each shall be cumulative of every other right or remedy given hereunder or now or hereafter existing at law or in equity or by statute or otherwise, and may be enforced concurrently therewith or from time to time.

10. Disputes.

a. General. All disputes arising under, related to or in connection with the terms of this Agreement or its interpretation, whether involving law or fact or both, including without limitation questions concerning allowability of compensation, and all claims for alleged breach of contract, shall be presented in writing to the Executive Director for final determination.

b. Procedure. Requests for determination of disputes will be made by the Consultant in writing specifically referencing this Section, and will include: 1) the issue(s) presented for resolution; 2) a PS1159-Patrick Engineering Inc.

statement of the respective positions of the Consultant and the Project Manager; 3) the facts underlying the dispute; 4) reference to the applicable provisions of the Agreement by page and section; 5) identify any other parties believed to be necessary to the resolution; and 6) all documentation which describes and relates to the dispute. Consultant will promptly provide the Executive Director with a copy of the request for determination of the dispute. The Project Manager will have thirty (30) business days to respond in writing to the dispute by supplementing the submission or providing its own submission to the Executive Director. Failure by the Project Manager to respond will not be deemed to be an admission of any allegations made in the request for dispute resolution, but will be deemed to constitute a waiver of the opportunity to respond to such allegation(s), if any. The Executive Director's decision may thereafter be reached in accordance with such other information or assistance as she or he may deem reasonable, necessary or desirable.

c. Effect. The Executive Director's final decision will be rendered in writing no more than forty-five (45) business days after receipt of the response by the Project Manager was filed or was due unless the Executive Director notifies the Consultant that additional time for the decision is necessary. The Executive Director's decision will be conclusive, final, and binding on all parties. Consultant must follow the procedures set out in this Section and receive the Executive Director's final decision as a condition precedent to filing a complaint in the Circuit Court of Cook County or any other court.

The Consultant will not withhold performance of any Services required by the Commission under this Agreement during the dispute resolution period. The Executive Director's written determination will be complied with pending final resolution of the dispute.

11. Confidentiality. All of the reports, information, or data prepared or assembled by the Consultant under this Agreement are confidential, and the Consultant agrees that such reports, information or data shall not be made available to any party without the prior written approval of the Commission. In addition, the Consultant shall not, without the prior written consent of the Commission, prepare or distribute any news releases, articles, brochures, advertisements or other materials concerning this Agreement, the Project or the Services.

12. Assignment. The Consultant acknowledges that the Commission is induced to enter into this Agreement by the personal qualifications of the principals, staff and employees of the Consultant and agrees, therefore, that neither this Agreement nor any right or obligation hereunder may be assigned by the Consultant, in whole or in part, without the prior written approval of the Commission. The Commission expressly reserves the right to assign or otherwise transfer all or any part of its interests hereunder without the consent or approval of the Consultant.

13. Personnel. The Consultant further acknowledges that the Consultant has represented to the Commission the availability of certain members of the Consultant's staff who will be assigned to the Project, and agrees, therefore, that in the event of the unavailability of such members due, the Consultant shall so notify the Commission in writing, and shall assign other qualified members of the Consultant's staff, as approved by the Commission, to the Project.

14. Relationship of Parties. The relationship of the Consultant to the Commission hereunder is that of an independent contractor, and the Consultant, except to the extent expressly provided to the contrary in this agreement, shall have no right or authority to make contracts or commitments for or on behalf of the Commission, to sign or endorse on behalf of the Commission any instruments of any nature or to enter into any obligation binding upon the

Commission. This Agreement shall not be construed as an agreement of partnership, joint venture, or agency.

15. Miscellaneous.

a. **Counterparts.** This Agreement may be executed in any number of counterparts, any of which shall be deemed an original.

b. **Entire Agreement.** This Agreement constitutes the entire understanding and agreement between the parties hereto and supersedes any and all prior or contemporaneous oral or written representations or communications with respect to the subject matter hereof, all of which communications are merged herein. This Agreement shall not be modified, amended or in any way altered except by an instrument in writing signed by both of the parties hereto.

c. **Force Majeure.** Neither of the parties shall be liable to the other for any delay or failure in performance hereunder due to causes which are beyond the control of the party unable to perform. If a force majeure occurs, the party delayed or unable to perform shall give prompt notice to the other party, and the Commission may, at any time during the continuation of the force majeure event, elect to suspend the performance of the Consultant under this Agreement for the duration of the force majeure. The Commission shall not be obligated to pay for Services to the extent and for the duration that performance thereof is delayed or prevented by force majeure, but, provided the Consultant is not in default of any obligation of the Consultant hereunder, the Commission shall pay to the Consultant, according to the terms hereof, all compensation and reimbursements due to the Consultant for periods up to the effective date of suspension.

d. **Governing Law.** This Agreement has been negotiated and executed in the State of Illinois and shall be construed under and in accordance with the internal laws of the State of Illinois.

e. **No Waiver.** The waiver by either party of any breach of this Agreement shall not constitute a waiver as to any succeeding breach.

f. **Notices.** All notices required to be given hereunder shall be given in writing and shall be hand delivered or sent by United States certified or registered mail, postage prepaid, addressed to Commission and to the Consultant at their respective addresses set forth above. If given as herein provided, such notice shall be deemed to have been given on the date of delivery, if delivered by hand, and on the second business day after mailing, if given by mail. The Commission or the Consultant may, from time to time, change the address to which notices hereunder shall be sent by giving notice to the other party in the manner provided in this subparagraph.

g. **Reimbursable Expenses** as herein referred to includes actual expenditures, as identified in this agreements, made by the Consultant.

h. **Severability.** In the event that any provisions of this Agreement shall be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

i. **Successors and Assigns.** Except as otherwise provided herein, this Agreement shall be binding upon and inure to the benefit of each of the parties hereto and their respective successors and assigns.

j. **Consultant's Authority.** Execution of this Agreement by the Consultant is authorized by a resolution of its Board of Directors, if a corporation, or similar governing document if a partnership or a joint venture, and the signatures(s) of each person signing on behalf of the Consultant have been made with complete and full authority to commit the Consultant to all terms and conditions of this Agreement, including each and every representation, certification and warranty contained or incorporated by reference in it.

Ms. Jennifer Valentin, Jr. Portfolio Manager
Richard J. Daley Center
Public Building Commission of Chicago
50 W. Washington Street, Room 200
Chicago, Illinois 60602

Subject: Proposal for Phase I ESA and Phase II Subsurface ESA
Marshall Campus Park
Multiple Parcels
Chicago, Illinois

Reference: Patrick Proposal No. 2A703.539

Dear Ms. Valentin:

Patrick Engineering Inc. (Patrick) is pleased to submit this proposal to the Public Building Commission of Chicago (PBC) to conduct an environmental document review and a Phase II Environmental Site Assessment (ESA), including an electromagnetic (EM) survey, for the Marshall Faraday Campus Park, in Chicago, Illinois (the "Site"). The properties comprising the site are located between Kedzie Ave (to the east), Monroe Street (to the north), Jackson Boulevard (to the south) and Spaulding Ave (to the west). Patrick understands that the PBC wishes to obtain an environmental review and Phase II ESA to reflect the current environmental status and investigate the subsurface conditions of the Site. This proposal describes our proposed Scope of Services, Fee, and Schedule.

SCOPE OF SERVICES

Task 1: Environmental Document Review

Patrick will review specific existing environmental documents for the Site. This review should not be considered a Phase I ESA because it does not meet ASTM 1527-05 standards, which include a site reconnaissance, regulatory database review, interviews, and other specific investigation methods. The Scope of Services for the environmental document review includes the following:

- Patrick will review Sanborn Fire Insurance Maps that are available in the previous Phase I ESA's completed by Carnow, Conibear & Associates, Ltd. (CCA) and GSG Consultants, Inc. (GSG). The Sanborn Maps will be used to identify the historical uses of

each property located on the Site, and to locate potential underground storage tanks (USTs) that may still be located at the Site.

- Patrick will submit Freedom of Information Act (FOIA) requests to the City of Chicago Department of Environment (DOE) for the Site properties that were not included in either the CCA or GSG Phase I ESA's. Responses from the DOE typically take 30-60 days, therefore this information may not be available before moving on to Task 2 of this proposal.
- If sufficient information regarding the historical use of the Site properties cannot be determined from the Sanborn Map review, Patrick will review Criss Cross directories at the Chicago Historical Society office for the properties in question.
- Patrick will submit a letter report to the PBC detailing the findings of the environmental document review, including all backup documentation.

Task 2: Phase II ESA

Objectives

The two previously completed Phase I ESA's identified several Recognized Environmental Concerns (RECs) in conjunction with the Site. The attached Table 1 identifies each parcel that requires further investigation in Task 2 and indicates Patrick's proposed Scope of Services. In general, several objectives for the Phase II ESA investigation have been prepared to determine the presence of any suspected subsurface contamination related to the identified RECs. The objectives are as follows:

1. To identify the locations of any USTs that may still be located on the Site.
2. To identify any potential subsurface contamination at the Site by drilling and collecting soil samples for laboratory analysis.

Scope of Services

The Scope of Services provided below were based on the findings of the Phase I ESA reports prepared by CCA in November 2000 and GSG in July 2001 and on the objectives outlined above. Please note, Patrick's Scope of Work for the Phase II ESA does not include the properties located at 3300 W Jackson Blvd. or 3301 W 5th Ave (former Amoco Station), 3200 W Jackson Blvd. (former Shell Station) and 3300 W. 5th Ave (Former Gas Station) as these properties are currently being remediated under the direction of Amoco, Shell Oil Co. and CPS, respectively. In addition, Patrick has assumed that no Phase II ESA activities will take place on the parcels identified in Table 1 as requiring no further investigation. The Scope of Services shall consist of the following:

1. In order to address the first objective outlined above, Patrick will complete an Electromagnetic (EM) survey (EM) of the parcels suspected to contain USTs. Based on information provided by the PBC, eight parcels will be investigated for USTs (3236-3244 W. Jackson, 3254 W. Jackson, 3301-3303 W. Monroe, 3255 W. Adams, 3324 W. 5th Ave., 3332 W. 5th Ave., 3334-3338 W. 5th Ave., and 3244-3248 W. 5th Ave. The results of this survey

- will identify likely UST locations at the Site. The PBC recommended that Patrick conduct the EM survey prior to conducting the Environmental Document Review (Task 1), however Patrick feels that the document review should be conducted first to identify potential UST locations prior to mobilizing in the field with the EM equipment. Costs for the removal of any discovered UST's have not been included in this proposal.
2. Patrick's drilling subcontractor will call the utility locator to have network utility companies mark underground utilities in the vicinity of each boring. Any private on-site utilities will need to be marked by the existing property owner, or project drawings indicating the locations of site utilities will need to be provided to Patrick prior to mobilization to the Site.
 3. In order to address the second objective outlined above, Patrick will advance a total of thirty (30) soil borings using a GeoProbe® direct-push drilling unit to a depth of 12 feet below ground surface (bgs). Four (4) borings will be drilled at 3256 W Jackson Blvd, five (5) borings will be completed at 3201 W. 5th Ave (a.k.a 200 S. Kedzie), four (4) borings will be completed at 3252 W 5th Ave, six (6) borings will be completed at 3314 W. 5th Ave, four (4) borings will be completed 3322 W 5th Ave, three (3) borings will be completed at 3334 W. 5th Ave and four (4) borings will be completed at 3332 W. 5th Ave.
 4. At the six properties that represent former automobile service and repair facilities (3256 W. Jackson Blvd., 3201 W. 5th Ave., 3252 W 5th Ave., 3314 W. 5th Ave., 3322 W 5th Ave., and 3334 W. 5th Ave.), soil borings will be continuously sampled and screened in the field for volatile organic compounds using a photoionization detector (PID). The sample with the highest PID reading or the most field evidence of contamination (odor, staining, etc.) at each property will be submitted for laboratory analysis of Leaking Underground Storage Tank (LUST) Pollutants, as defined in 35 IAC Part 734. If no evidence of contamination is identified and PID readings are all negligible at a given property, no sample will be submitted for analysis. For the purposes of this proposal, Patrick has budgeted for one LUST Pollutant analysis from each of the former auto facilities (six total).
 5. If a sample is collected from one of the six former auto repair facilities and submitted for LUST Pollutant analysis, two soil samples will be collected from each of the other borings located on the same property, one shallow sample from the 0-3 feet depth interval and one deeper sample at a depth to be determined based on field evidence of contamination. These soil samples will also be submitted to the laboratory, but will be placed on hold until the results of the LUST Pollutant sample are available. If any LUST Pollutant compounds exceed the Illinois EPA's Tiered Approach to Corrective Action Objectives (TACO) Tier 1 residential soil objectives, the remaining samples from the same property will be analyzed for only those exceeding compounds. For the purposes of this proposal, Patrick has budgeted \$1,000 worth of additional analyses at each of the six properties.
 6. At the one former dry cleaning facility (3332 W. 5th Ave.), soil borings will also be continuously sampled and screened in the field for volatile organic compounds using a photoionization detector (PID). The sample with the highest PID reading or the most field evidence of contamination (odor, staining, etc.) will be submitted for laboratory analysis of Volatile Organic Compounds (VOCs) and Semi-Volatile Organic Compounds (SVOCs). If

no evidence of contamination is identified and PID readings are all negligible at a given property, the analytical sample will be collected from a depth of 0-3 feet in an area likely to be near the solvent storage tank(s). Two soil samples will be collected from each of the other borings located on the dry cleaner property, one shallow sample from the 0-3 feet depth interval and one deeper sample at a depth to be determined based on field evidence of contamination. These soil samples will also be submitted to the laboratory, but will be placed on hold until the results of the VOC and SVOC sample are available. If any VOC or SVOC compounds exceed the Illinois EPA's Tiered Approach to Corrective Action Objectives (TACO) Tier 1 residential soil objectives, the remaining samples from the same property will be analyzed for only those exceeding compounds. For the purposes of this proposal, Patrick has budgeted \$1,000 worth of additional analyses at the former dry cleaner property.

7. All soil cuttings will be returned to their respective boring holes, and borings will be abandoned by filling with bentonite, if necessary.
8. Drilling will be performed under the direction of an experienced geologist or geotechnical engineer who will classify soils, prepare field boring logs, collect soil and groundwater samples, and document site activities.
9. For this proposal, it is assumed that no specific personal protective equipment will be necessary other than standard protection, such as hard hats, safety glasses, etc. Should any other protection be required (Level D, Level C, etc.), we will need to revise our proposal.
10. A Phase II ESA letter report will be prepared to summarize analytical results and information obtained in the field. This report will include documentation of field methods and results, a description of Site soils, groundwater conditions, and locations of the borings and samples. Please note that surveying the boring locations is not included in this Scope of Services.

SCHEDULE

Patrick will begin the proposed Scope of Services after receiving Notice to Proceed (NTP) from the Public Building Commission of Chicago. Patrick proposes the following project schedule:

1. Complete Environmental Document Review Completed 2 weeks after NTP
2. Complete Electromagnetic Survey..... Completed 6 weeks after NTP
2. Complete Subsurface Investigation..... Completed 6 weeks after NTP
3. Submit Phase II ESA Letter Report Completed 10 weeks after NTP

FEEES

Patrick proposes to complete the above-referenced Scope of Services for a time-and-materials not-to-exceed budget of \$46,000. These fees include only the Scope of Services and assumptions stated above. If, at any time during the environmental document review or Phase II ESA investigation, Patrick feels that additional services may be warranted, Patrick will contact the Client immediately and an additional fee can be negotiated.

Public Building Commission of Chicago
July 17, 2007

Page 5 of 5

This proposal has been prepared under Patrick's existing contract with the Client dated July 26, 2006 and titled *PS 980: Environmental Services for Various Locations*.

Thank you for this opportunity to provide engineering services on this project. If you would like to discuss this proposal in further detail, please feel free to contact me at (630) 795-7464.

Sincerely,

PATRICK ENGINEERING INC.

Subject: Proposal for Phase I ESA and Phase II Subsurface ESA
Marshall Campus Park
Multiple Parcels
Chicago, Illinois

Reference: Patrick Proposal No. 2A703.539

Dear Ms. Valentin:

Patrick Engineering Inc. (Patrick) is pleased to submit this proposal to the Public Building Commission of Chicago (PBC) to conduct an environmental document review and a Phase II Environmental Site Assessment (ESA), including an electromagnetic (EM) survey, for the Marshall Faraday Campus Park, in Chicago, Illinois (the "Site"). The properties comprising the site are located between Kedzie Ave (to the east), Monroe Street (to the north), Jackson Boulevard (to the south) and Spaulding Ave (to the west). Patrick understands that the PBC wishes to obtain an environmental review and Phase II ESA to reflect the current environmental status and investigate the subsurface conditions of the Site. This proposal describes our proposed Scope of Services, Fee, and Schedule.

SCOPE OF SERVICES

Task 1: Environmental Document Review

Patrick will review specific existing environmental documents for the Site. This review should not be considered a Phase I ESA because it does not meet ASTM 1527-05 standards, which include a site reconnaissance, regulatory database review, interviews, and other specific investigation methods. The Scope of Services for the environmental document review includes the following:

- Patrick will review Sanborn Fire Insurance Maps that are available in the previous Phase I ESA's completed by Carnow, Conibear & Associates, Ltd. (CCA) and GSG Consultants, Inc. (GSG). The Sanborn Maps will be used to identify the historical uses of

each property located on the Site, and to locate potential underground storage tanks (USTs) that may still be located at the Site.

- Patrick will submit Freedom of Information Act (FOIA) requests to the City of Chicago Department of Environment (DOE) for the Site properties that were not included in either the CCA or GSG Phase I ESA's. Responses from the DOE typically take 30-60 days, therefore this information may not be available before moving on to Task 2 of this proposal.
- If sufficient information regarding the historical use of the Site properties cannot be determined from the Sanborn Map review, Patrick will review Criss Cross directories at the Chicago Historical Society office for the properties in question.
- Patrick will submit a letter report to the PBC detailing the findings of the environmental document review, including all backup documentation.

Task 2: Phase II ESA

Objectives

The two previously completed Phase I ESA's identified several Recognized Environmental Concerns (RECs) in conjunction with the Site. The attached Table 1 identifies each parcel that requires further investigation in Task 2 and indicates Patrick's proposed Scope of Services. In general, several objectives for the Phase II ESA investigation have been prepared to determine the presence of any suspected subsurface contamination related to the identified RECs. The objectives are as follows:

1. To identify the locations of any USTs that may still be located on the Site.
2. To identify any potential subsurface contamination at the Site by drilling and collecting soil samples for laboratory analysis.

Scope of Services

The Scope of Services provided below were based on the findings of the Phase I ESA reports prepared by CCA in November 2000 and GSG in July 2001 and on the objectives outlined above. Please note, Patrick's Scope of Work for the Phase II ESA does not include the properties located at 3300 W Jackson Blvd. or 3301 W 5th Ave (former Amoco Station), 3200 W Jackson Blvd. (former Shell Station) and 3300 W. 5th Ave (Former Gas Station) as these properties are currently being remediated under the direction of Amoco, Shell Oil Co. and CPS, respectively. In addition, Patrick has assumed that no Phase II ESA activities will take place on the parcels identified in Table 1 as requiring no further investigation. The Scope of Services shall consist of the following:

1. In order to address the first objective outlined above, Patrick will complete an Electromagnetic (EM) survey (EM) of the parcels suspected to contain USTs. Based on information provided by the PBC, eight parcels will be investigated for USTs (3236-3244 W. Jackson, 3254 W. Jackson, 3301-3303 W. Monroe, 3255 W. Adams, 3324 W. 5th Ave., 3332 W. 5th Ave., 3334-3338 W. 5th Ave., and 3244-3248 W. 5th Ave. The results of this survey

- will identify likely UST locations at the Site. The PBC recommended that Patrick conduct the EM survey prior to conducting the Environmental Document Review (Task 1), however Patrick feels that the document review should be conducted first to identify potential UST locations prior to mobilizing in the field with the EM equipment. Costs for the removal of any discovered UST's have not been included in this proposal.
2. Patrick's drilling subcontractor will call the utility locator to have network utility companies mark underground utilities in the vicinity of each boring. Any private on-site utilities will need to be marked by the existing property owner, or project drawings indicating the locations of site utilities will need to be provided to Patrick prior to mobilization to the Site.
 3. In order to address the second objective outlined above, Patrick will advance a total of thirty (30) soil borings using a GeoProbe® direct-push drilling unit to a depth of 12 feet below ground surface (bgs). Four (4) borings will be drilled at 3256 W Jackson Blvd, five (5) borings will be completed at 3201 W. 5th Ave (a.k.a 200 S. Kedzie), four (4) borings will be completed at 3252 W 5th Ave, six (6) borings will be completed at 3314 W. 5th Ave, four (4) borings will be completed 3322 W 5th Ave, three (3) borings will be completed at 3334 W. 5th Ave and four (4) borings will be completed at 3332 W. 5th Ave.
 4. At the six properties that represent former automobile service and repair facilities (3256 W. Jackson Blvd., 3201 W. 5th Ave., 3252 W 5th Ave., 3314 W. 5th Ave., 3322 W 5th Ave., and 3334 W. 5th Ave.), soil borings will be continuously sampled and screened in the field for volatile organic compounds using a photoionization detector (PID). The sample with the highest PID reading or the most field evidence of contamination (odor, staining, etc.) at each property will be submitted for laboratory analysis of Leaking Underground Storage Tank (LUST) Pollutants, as defined in 35 IAC Part 734. If no evidence of contamination is identified and PID readings are all negligible at a given property, no sample will be submitted for analysis. For the purposes of this proposal, Patrick has budgeted for one LUST Pollutant analysis from each of the former auto facilities (six total).
 5. If a sample is collected from one of the six former auto repair facilities and submitted for LUST Pollutant analysis, two soil samples will be collected from each of the other borings located on the same property, one shallow sample from the 0-3 feet depth interval and one deeper sample at a depth to be determined based on field evidence of contamination. These soil samples will also be submitted to the laboratory, but will be placed on hold until the results of the LUST Pollutant sample are available. If any LUST Pollutant compounds exceed the Illinois EPA's Tiered Approach to Corrective Action Objectives (TACO) Tier 1 residential soil objectives, the remaining samples from the same property will be analyzed for only those exceeding compounds. For the purposes of this proposal, Patrick has budgeted \$1,000 worth of additional analyses at each of the six properties.
 6. At the one former dry cleaning facility (3332 W. 5th Ave.), soil borings will also be continuously sampled and screened in the field for volatile organic compounds using a photoionization detector (PID). The sample with the highest PID reading or the most field evidence of contamination (odor, staining, etc.) will be submitted for laboratory analysis of Volatile Organic Compounds (VOCs) and Semi-Volatile Organic Compounds (SVOCs). If

no evidence of contamination is identified and PID readings are all negligible at a given property, the analytical sample will be collected from a depth of 0-3 feet in an area likely to be near the solvent storage tank(s). Two soil samples will be collected from each of the other borings located on the dry cleaer property, one shallow sample from the 0-3 feet depth interval and one deeper sample at a depth to be determined based on field evidence of contamination. These soil samples will also be submitted to the laboratory, but will be placed on hold until the results of the VOC and SVOC sample are available. If any VOC or SVOC compounds exceed the Illinois EPA's Tiered Approach to Corrective Action Objectives (TACO) Tier 1 residential soil objectives, the remaining samples from the same property will be analyzed for only those exceeding compounds. For the purposes of this proposal, Patrick has budgeted \$1,000 worth of additional analyses at the former dry cleaner property.

7. All soil cuttings will be returned to their respective boring holes, and borings will be abandoned by filling with bentonite, if necessary.
8. Drilling will be performed under the direction of an experienced geologist or geotechnical engineer who will classify soils, prepare field boring logs, collect soil and groundwater samples, and document site activities.
9. For this proposal, it is assumed that no specific personal protective equipment will be necessary other than standard protection, such as hard hats, safety glasses, etc. Should any other protection be required (Level D, Level C, etc.), we will need to revise our proposal.
10. A Phase II ESA letter report will be prepared to summarize analytical results and information obtained in the field. This report will include documentation of field methods and results, a description of Site soils, groundwater conditions, and locations of the borings and samples. Please note that surveying the boring locations is not included in this Scope of Services.

SCHEDULE

Patrick will begin the proposed Scope of Services after receiving Notice to Proceed (NTP) from the Public Building Commission of Chicago. Patrick proposes the following project schedule:

1. Complete Environmental Document Review Completed 2 weeks after NTP
2. Complete Electromagnetic Survey..... Completed 6 weeks after NTP
2. Complete Subsurface Investigation..... Completed 6 weeks after NTP
3. Submit Phase II ESA Letter Report Completed 10 weeks after NTP

FEES

Patrick proposes to complete the above-referenced Scope of Services for a time-and-materials not-to-exceed budget of \$46,000. These fees include only the Scope of Services and assumptions stated above. If, at any time during the environmental document review or Phase II ESA investigation, Patrick feels that additional services may be warranted, Patrick will contact the Client immediately and an additional fee can be negotiated.

SCHEDULE E

Marshall High School Campus Park
Geotechnical Services

INSURANCE REQUIREMENTS

The Consultant must provide and maintain at Consultant's own expense, until expiration or termination of the Agreement and during the time period following expiration if Consultant is required to return and perform any additional work, the minimum insurance coverage and requirements specified below, insuring all operations related to the Agreement.

E.1. INSURANCE TO BE PROVIDED

E.1.1. Workers' Compensation and Employers Liability

Workers' Compensation Insurance, as prescribed by applicable law covering all employees who are to provide a service under the Agreement and Employers Liability coverage with limits of not less than \$500,000 each accident, illness or disease.

E.1.2. Commercial General Liability (Primary and Umbrella)

Commercial General Liability Insurance or equivalent with limits of not less than \$1,000,000 per occurrence for bodily injury, personal injury, and property damage liability. Coverage must include the following: All premises and operations, products/completed operations, separation of insureds, defense, and contractual liability (with no limitation endorsement). The Public Building Commission and Board of Education must be named as additional insureds on a primary, non-contributory basis for any liability arising directly or indirectly from the work.

E.1.3. Automobile Liability (Primary and Umbrella)

When any motor vehicles (owned, non-owned and hired) are used in connection with work to be performed, the Consultant must provide Automobile Liability Insurance, with limits of not less than \$1,000,000 per occurrence for bodily injury and property damage. The Public Building Commission and Board of Education must be named as additional insureds on a primary, non-contributory basis.

E.1.4. Professional Liability

When any professional Consultant performs work in connection with the Agreement, Professional Liability Insurance will be maintained with limits of not less than \$1,000,000 covering acts, errors, or omissions. When policies are renewed or replaced, the policy retroactive date must coincide with, or precede the, start of work on the Agreement. A claims-made policy, which is not renewed or replaced, must have an extended reporting period of two (2) years.

E.1.5. Property

The Consultant is responsible for all loss or damage to Commission and/or Board of Education property at full replacement or repair cost. The Consultant is responsible for all loss or damage to personal property (including but not limited to materials, equipment, tools, and supplies) owned, rented, or used by Consultant.

E.1.6. Valuable Papers

When any plans, designs, drawings, specifications, data, media, and documents are produced or used under this Agreement, Valuable Papers Insurance shall be maintained in an amount to insure against any loss whatsoever, and shall have limits sufficient to pay for the re-creation and reconstruction of such records.

E.1.7 Contractors Pollution Liability

When any work is performed which may cause a pollution exposure, Contractors Pollution Liability must be provided covering bodily injury, property damage and other losses caused by pollution conditions that arise from the Contract scope of services with limits of not less than \$1,000,000 per occurrence. Coverage must include completed operations, contractual liability, defense, excavation, environmental cleanup, remediation and disposal. When policies are renewed or replaced, the policy retroactive date must coincide with or precede, start of work on the Contract. A claims-made policy, which is not renewed or replaced, must have an extended reporting period of two (2) years. The Public Building Commission and the Board of Education are to be named as additional insureds on a primary, non-contributory basis.

E.1.8 Railroad Protective Liability

When any work is to be done adjacent to or on railroad or transit property, Contractor must provide, with respect to the operations that Contractor or subcontractors perform, Railroad Protective Liability Insurance in the name of railroad or transit entity. The policy must have limits of not less than the requirement of the operating railroad/transit entity for losses arising out of injuries to or death of all persons, and for damage to or destruction of property, including the loss of use thereof.

E.2. ADDITIONAL REQUIREMENTS

The Consultant must furnish the Public Building Commission Procurement Department, Richard J. Daley Center, Room 200, Chicago, IL 60602, original Certificates of Insurance, or such similar evidence, to be in force on the date of this Agreement, and Renewal Certificates of Insurance, or such similar evidence, if any insurance coverage has an expiration or renewal date occurring during the term of this Agreement. The Consultant must submit evidence of insurance to the Commission before award of Agreement. The receipt of any certificate does not constitute agreement by the Commission that the insurance requirements in the Agreement have been fully met or that the insurance policies indicated on the certificate are in compliance with all Agreement requirements. The failure of the Commission to obtain certificates or other insurance evidence from Consultant is not a waiver by the Commission of any requirements for the Consultant to obtain and maintain the specified coverage. The Consultant will advise all insurers of the Agreement provisions regarding insurance. Non-conforming insurance does not relieve Consultant of the obligation to provide insurance as specified in this Agreement. Nonfulfillment of the insurance conditions may constitute a breach of the Agreement, and the Commission retains the right to stop work until proper evidence of insurance is provided, or the Agreement may be terminated.

The Commission reserves the right to obtain copies of insurance policies and records from the Consultant and/or its subcontractors at any time upon written request.

The insurance must provide for 60 days prior written notice to be given to the Commission if any policies are canceled, substantially changes, or non-renewed.

Any deductibles or self-insured retentions on referenced insurance must be borne by Consultant.

The Consultant hereby waives and agrees to require their insurers to waive their rights of subrogation against the Commission and Board of Education, their respective Board members, employees, elected and appointed officials, and representatives.

The insurance coverage and limits furnished by Consultant in no way limit the Consultant's liabilities and responsibilities specified within the Agreement or by law.

Any insurance or self-insurance programs maintained by the Commission and the Board of Education do not contribute with insurance provided by the Consultant under the Agreement.

The required insurance to be carried is not limited by any limitations expressed in the indemnification language in this Agreement or any limitation placed on the indemnity in the Agreement given as a matter of law.

If Consultant is a joint venture or limited liability company, the insurance policies must name the joint venture or limited liability company as a named insured

The Consultant must require all its subcontractors to provide the insurance required in this Agreement, or Consultant may provide the coverage for its subcontractors. All subcontractors are subject to the same insurance requirements of Consultant unless otherwise specified in this Agreement.

If Consultant or its subcontractors desire additional coverage, the party desiring the additional coverage is responsible for the acquisition and cost.

The Commission's Risk Management Department maintains the rights to modify, delete, alter or change these requirements.
