

**PUBLIC BUILDING COMMISSION OF CHICAGO  
FIRST AMENDMENT  
CONTRACT NUMBER PS1198**

**THIS FIRST AMENDMENT AGREEMENT** is made and entered into as of the 18<sup>th</sup> day of March, 2008, and shall be deemed and taken as forming a part of the Agreement for Labor Compliance Software ("Agreement") between by and between the **PUBLIC BUILDING COMMISSION OF CHICAGO**, a municipal corporation of the State of Illinois ("Commission") and LCPtracker, Inc. ("Consultant") dated November 28, 2007 with the like operation and effect as if the same were incorporated therein.

**WITNESSETH:**

**WHEREAS**, the Commission and Consultant have heretofore entered into an Agreement dated the 28<sup>th</sup> day of November, 2008, ("Agreement"), wherein the Consultant is to provide LCP Tracker Labor Compliance Software Services for the Commission; and

**WHEREAS**, the Commission and Consultant now desire to amend the Agreement to include additional Services and software provided and associated compensation due to Consultant;

**NOW THEREFORE**, in consideration of the provisions and conditions set forth in the Agreement and herein, the parties hereto mutually agree to amend the Agreement as hereinafter set forth.

It is agreed by and between the parties hereto that the sole modification of, changes in, and amendments to the Agreement pursuant to this Amendment are as follows:

**TERMS**

1. **Recitals**  
**THE ABOVE RECITALS ARE EXPRESSLY INCORPORATED IN AND MADE A PART OF THE AMENDMENT AGREEMENT AS THOUGH FULLY SET FORTH HEREIN.**
2. **Scope of Services**  
The additional Services included in the Attachment "A" Statement of Work are to be included as part of this Agreement.
3. **Compensation of the Consultant**

Consultant will be compensated for the additional Services outline in Item 2 above as outlined in the attached Pricing Proposal dated January 10, 2008

Execution of this Amendment by the Consultant is duly authorized by the Consultant, and the signature(s) of each person signing on behalf of the Consultant have been made with the complete and full authority to commit the Consultant to all terms and conditions of this Amendment.

All capitalized terms not defined herein shall have the meaning ascribed to them in the agreement. Except as and to the extent that the terms of the Agreement are amended and modified herein, all terms of the Agreement shall remain in force and effect.

**IN WITNESS WHEREOF**, the parties hereto have agreed and executed this Amendment Agreement No. 1.

## **Overview**

The B2Gnow Diversity Management System is an end-to-end solution that will meet any large government's diversity program needs.

**There is a baseline system, which includes vendor management and seven functional modules that can be combined in any manner.**

- **Baseline System & Vendor Management**
- **Contract Management & Compliance**
- **Outreach Management**
- **Certification Management (Optional)**
- **Certified Payroll/Prevailing Wage Compliance (Optional)**
- **Concession Management & Compliance (Optional)**
- **Insurance Management (Optional)**

The sample reports and notification listed for each module are the standard templates. Notification templates are customized to an organization's letterhead.

## Baseline System & Vendor Management

- **Staff management:** Staff will have password-protected access to their own accounts. They will be able to manage their own accounts, including contact information and settings, and will be able to add new staff accounts as necessary. Primary types of users include Diversity Users and Buyers/Project Managers. Diversity Users have access to all diversity functions and can edit contracts and audit data (with authorization). Buyers/Project Managers have access to contract management functions, can edit contracts, but cannot edit audit data. All users can run reports, though certain reports are available to each user type.

Roles will be set up to accommodate certain types of users (Administrator, Standard, Limited, Contract Administrator, Clerk, etc.). Initially, user access will be wide-ranging, and the City can further restrict access over time as it gains familiarity with user functions and requirements.

- **Vendor management:** Staff will be able to manage vendor accounts, including adding and editing information related to vendors (concessionaires, subcontractors, and suppliers).
- **Vendor accounts:** Vendors will have password-protected access to their own accounts. They will also be able to set up multiple users.
- **Vendor registration:** Staff will be able to add vendors.
- **Search:** Staff will have full search capabilities (i.e. searching for vendors by owner name, contract/concession name, certification, DBEs, MBEs, WBEs, ethnicity, gender, keyword, etc.).
- **Reporting:** Staff will be able to run reports at any time.
- **Messaging:** Users will be able to create and send messages to each other. A copy of the message is emailed and/or faxed to recipients based upon their account settings. The presence of file attachments is indicated in the email/fax notification, but attachments are not sent out the email/fax recipient.
- **Help & support:** Users will have access to online help and the Forums/Knowledge Base.
- **Connectivity/interfacing:** System has an XML interface to exchange data with existing and future systems.
  - Financial system – contracts, POs, payments, vendors.
  - Contract management system – contracts, payments.
  - Certified directory – external directories of certified firms (UCP, etc.).
- **File attachments:** Enable any set of approved file types to be attached to transactions and documents. The system will track downloading and viewing of files by any user.
- **Spell checking:** One pass spell checking of all forms with customizable dictionary.
- **Commodity codes:** Supports multiple commodity code types simultaneously (NIGP, NAICS, etc.). Search, browse, and edit commodity codes, then assign them to transactions and records.
- **System portal & content:**
  - Multi-lingual home page content customizable through web-based interface.
  - Customizable page layout and database data fields.
  - Conforms to organization's current web site.
- **Security:** The system provides maximum security, including:
  - Detailed user and transaction audit trails.
  - Password protected account for every user.
  - 128-bit SSL encryption.
  - 100% web-based.

- No cookies.
- **Template management:** Staff will be able to use and manage standard transaction templates.
- **Communications Log**
  - Track all email, fax, letter, and phone communications.

---

### Sample Notifications (email/fax/hardcopy)

- **Users**
  - User password change confirmation
  - User password reminder
  - User registration confirmation
  - Vendor information verification
- **General**
  - Message

### **Contract Management & Compliance**

- **Contract management:** Staff will be able to add, manage, and close out contracts. Staff will be able to manage each contract and add new contracts as needed. A contract may include multiple second tier certified and non-certified subcontractors. A variety of tools are available, including subcontractor lists, extensions, suspensions, cancellations, change orders, close out, and deletion.
  - **Subcontractor list:** Staff will be able to add multiple subcontractors to a contract. An unlimited number of levels are supported.
  - **Contract types:** The City will designate the types of contracts to track, including construction, professional services, supply, services, etc. Revenue contracts are not included in contract management – refer to concession management.
  - **Change orders/amendments:** When change orders or contract amendment impact goals, the system will automatically re-calculate the new goals based upon original and new data.
  - **Notifications:** Contract officers can generate hard copy/email/fax notices for contract award, not meeting goal, contract close, and other related contract events.
  - **Contract close out:** At the end of a contract, staff will be able to rate a prime contractor relative to their diversity goal, verify any subcontractor retainage, and set the contract as closed.
- **Contract compliance:** The system will automatically audit active contracts every month or quarter.
  - All active prime contractors will be notified by email and/or fax to log in to their accounts and provide/confirm payment information for subcontractors. Each contract shall have configurable settings regarding the circumstances and timing of audits.

- If a payment is rejected, a discrepancy is created and prime and subcontractor are immediately notified of the need to resolve the issue.
- Staff will have access to all audits, and will be able to enter data on behalf of the vendors, and edit any existing data, at any time.
- Vendors will be able to enter and edit data for a set period of time, after which they will contact their contract compliance officer for an extension.
- The system will track the payment histories, including submitting user, date/time, and comments. As an audit record is modified, previous submissions will be archived for future reference. This historical information is available upon City request.

## Outreach Management

Staff will be provided access to the Outreach Management tool.

- User creates "project" of a particular types: online survey, bid notification to suppliers, seminar/training session with optional online RSVP capabilities. All content is templated and can be customized, including text of notices, questions and answers in surveys.
- User searches for firms by name, region, NAICS/NIGP code, then adds them to the project's contact list.

- Initial notices are sent out by email and/or fax, with automatic reminders distributed at user-selected intervals to those that don't respond (if option is selected).
- Staff will be able to create online surveys and seminar/training notifications with online RSVP capabilities. This includes the ability for electronic notifications and reminders for those that don't respond.
- Bulk email (and fax, if selected) messaging capability is available to notify vendors of outreach activities.
- The module will allow staff to attach documents in any authorized format (PDF, DOC, XLS, TXT, etc.) to the system message. A copy of the message is emailed and/or faxed to recipients based upon their account settings. The presence of file attachments are indicated in the email/fax notification, but attachments are not sent out the email/fax recipient.
- The system will allow vendors and customer to download above documents and track the number of downloads for each document.

#### LIMITED USE SOFTWARE AND DATA LICENSE AGREEMENT

BY SIGNING AND RETURNING THIS AGGREEMENT YOU ARE ACCEPTING THE TERMS AS STATED WITHIN.

You, as the User, assume full responsibility for the selection of the software and its associated data and/or information to achieve his/her intended results, and for the installation, use and results obtained from the software.

THIS DOCUMENT STATES THE TERMS AND CONDITIONS UPON WHICH ("LCPTRACKER/B2Gnow") OFFERS TO LICENSE THE SOFTWARE, NOT SELL, TO YOU FOR USE ONLY UNDER THE TERMS OF THIS LICENSE AND LCPTRACKER RESERVES ALL RIGHTS NOT EXPRESSLY GRANTED TO YOU UNDER THIS AGREEMENT.

1. License: The User acknowledges that the software program and documents and underlying ideas, algorithms, concepts, procedures, processes, principals and methods of operation are confidential and contain trade secrets, and User shall use its best efforts to maintain the confidentialities thereof.

User acknowledges that all intellectual property rights and the programs and documents are owned by LCPtracker/B2Gnow without limiting the generality of the preceding sentence, the programs, documents and user manuals are copyrighted and may not be copied except as specifically allowed by this license for backup purposes and to load the program on to the computer as part of executing the programs. All other copies of the programs and related user manuals are in violation of this agreement. The copyright protection claim also includes all forms and matters of copyrightable materials and information not allowed by statutory or common law or hereinafter granted including, without limitation, material generated from the software programs that are displayed on the screen such as icons and screen displays. The programs and documents may contain trade secrets and are subject to the protection of the California Uniform Trade Secrets Act.

The User acknowledges that this licensing agreement, unless modified by LCPtracker/B2Gnow, also applies to subsequent purchases of software and data, and any updated versions of the program and materials including any upgrades and enhancements related thereto. Any receipt of an updated version and the use thereof is subject to this licensing agreement's application thereto.

User may not sublease, assign or otherwise transfer the software and documents passwords, or provide any type of access to the systems to any other person or business entity without the prior written consent of LCPtracker/B2Gnow.

LCPtracker/B2Gnow may adopt from time to time mechanical or electronic methods that LCPtracker/B2Gnow deems necessary to protect you and to control unauthorized use or distribution of the programs.

2. The software and its associated data and/or information contain intellectual property and in order to protect them you may not decompile, reverse compile, reverse engineer, reverse translate, disassemble or otherwise reduce the software or its associated data and/or information to a human readable form or distribute them to any third party. YOU MAY NOT MODIFY, ADAPT, TRANSLATE, RENT, SELL, GIVE, LEASE OR LOAN THE SOFTWARE OR ITS ASSOCIATED DATA AND/OR INFORMATION OR CREATE DERIVATIVE WORKS BASED ON THE SOFTWARE, ITS ASSOCIATED DATA AND/OR INFORMATION OR THE ACCOMPANYING WRITTEN MATERIALS. (A) The software, its associated data and/or information and accompanying written materials are copyrighted. Unauthorized copying is expressly forbidden. You may be held legally responsible for any copyright infringement that is caused or encouraged by your failure to abide by the terms of this license. (B) You understand that LCPtracker/B2Gnow may upgrade, enhance, or revise the software and in doing so agrees to furnish such upgrades to you as part of the LCPtracker/B2Gnow offering.

3. Termination: This license is effective until terminated as indicated in the current price list agreement. Except for sections 4, 5 and 6, this license shall terminate automatically upon the earlier of: (a) Breach of your obligations under the license; (b) LCPtracker/B2Gnow's written termination of this license; or (c) By your nonpayment of any outstanding monies owed to LCPtracker/B2Gnow.
