Subject: Contract Signing Authority

Based on a recent review of contract signing authority, you are vested with authority to negotiate and execute contracts up to the limit of \$75,000. This limit applies to proposals that contain fee quotations as well. In the event that you are negotiating a contract or plan to submit a cost proposal that exceeds this limit, please follow the appropriate management chain of command to secure prior approval from the individual with sufficient contract signing authority.

b. Policies Concerning MBE and WBE. The Commission's policies concerning utilization of minority business enterprises ("MBE") and women business enterprises ("WBE"), as the same may be revised from time to time.

3. Engagement and Standards for Performing Services.

a. Engagement. The Commission hereby engages the Consultant, and the Consultant hereby accepts such engagement, to provide the Services described in this agreement, as the same may be amended, in writing, from time to time by mutual agreement of the Commission and the Consultant.

b. Performance Standard. The Consultant represents and agrees that the Services performed under this Agreement will proceed with efficiency, promptness and diligence and will be executed in a competent and thorough manner, in accordance with reasonable professional standards in the field consistent with that degree of skill and care ordinarily exercised by practicing environmental consulting professionals performing services of a scope, purpose, and magnitude comparable with the Services to be provided under this Agreement. If in the course of performing the Services, Consultant identifies any environmental condition, situation, issue or problem that may impact the performance of the Services or the Project, Consultant shall promptly provide notice to the Commission. The Consultant further promises that it will assign at all times during the term of the Agreement the number of experienced, appropriately trained employees necessary for the Consultant to perform the Services in the manner required by the Agreement.

c. Consultant's Personnel. Consultant must ensure that all Services that require the exercise of professional skills or judgment are accomplished by professionals qualified and competent in the applicable discipline and appropriately licensed, if required by law. Consultant must maintain current copies of any such licenses and provide these copies upon request by the Commission. Consultant remains responsible for the professional and technical accuracy of all Services furnished, whether by the Consultant or others on its behalf. All deliverables will be prepared in a form and content satisfactory to the Commission and delivered in a timely manner consistent with the requirements of the Agreement.

If the Consultant fails to comply with its obligations under the standards of the Agreement, the Consultant must perform again, at its own expense, all Services required to be re-performed as a direct or indirect result of that failure. Any review, approval, acceptance or payment for any of the Services by the Commission does not relieve Consultant of its responsibility to render the Services and deliverables with the professional skill and care and technical accuracy required by the Agreement. This provision in no way limits the Commission's rights against the Consultant, either under the Agreement, at law or in equity.

h. Changes to the Services. The Commission may from time to time, request changes to the terms of the Agreement or in the Scope of Services of the Consultant to be performed hereunder. Such changes, including any increase or decrease in the amount of compensation and revisions to the duration of the Services, which are mutually agreed upon by and between the Commission and Consultant, shall be incorporated in a written amendment to this Agreement. The Commission shall not be liable for any changes absent such written amendment.

4. Duties and Obligations of Consultant

a. Nondiscrimination. The Consultant agrees that in performing this Agreement it shall not discriminate against any worker, employee or applicant for employment, or any member of the public, because of race, creed, gender, color, national origin or disability, or otherwise commit an unfair labor practice. Attention is called to applicable provisions of the Civil Rights Act of 1964, 88-352, July 2, 1964, 78 Stat. 241 et. Seq. the Americans with Disabilities Act of 1990, 42 U.S.C. 12010 et. b. Employment Procedures, Preferences and Compliances. Salaries of employees of Consultant performing work under this Agreement shall be paid unconditionally and not less often than once a month without deduction or rebate on any account except only such payroll deductions as are mandatory or permitted by the applicable law or regulations. Attention is called to Illinois Compiled Statutes, 1992 relating to Wages and Hours including 820 ILCS 130/0.01 through 130/12 thereof (Prevailing Wage Act), 30 ILCS 570/1 through 570/7 (Employment of Illinois Workers on Public Works Act) and 30 ILCS 560/0.01 through 560/7 (Public Works Preference Act). If, in the performance of this Agreement, there is any direct or indirect kickback, the Commission shall withhold from the Consultant, out of payments due to it, an amount sufficient to pay employees underpaid the difference between the salaries required hereby to be paid and the salaries actually paid such employees for the total number of hours worked. The amounts withheld shall be disbursed by the Commission for and on account of the Consultant to the respective employees to whom they are due.

c. Compliance with Policies Concerning MBE and WBE. Without limiting the generality of the requirements of the policies of the Commission referred to in paragraph 2 above, the Consultant agrees to use best efforts to utilize minority business enterprises for not less than twenty five percent (25%) for MBE and five percent (5%) for WBE of the value of the Services, in accordance with the Resolution passed by the Board of Commissioners of the Commission on October 1, 2004, concerning participation of minority business enterprises and women business enterprises on contracts awarded by the Commission and to furnish to the Commission, such reports and other

information concerning compliance with such Resolution as may be requested by the Commission from time to time.

d. Delays. The Consultant agrees that no charges for damages or claims for damages shall be asserted by it against the Commission for any delays or hindrances from any cause whatsoever during the progress of any portion of the Services. Such delays or hindrances, if any, shall be compensated for by an extension of time to complete the Services, for such reasonable period as may be mutually agreed upon between the parties, it being understood, however, that the agreement of the Commission to allow the Consultant to complete the Services or any part of them after the time provided for the completion thereof herein shall in no way operate as a waiver on the part of the Commission of any of its rights hereunder.

e. Records. The Consultant shall maintain accurate and complete records of expenditures, costs and time incurred by Consultant in connection with the Project and the Services. Such records shall be maintained in accordance with recognized commercial accounting practices. The Commission may examine such records at Consultant's offices upon reasonable notice during normal business hours. Consultant shall retain all such records for a period of not less than five calendar years after the termination of this Agreement.

f. Time of Essence. The Consultant acknowledges and agrees that time is of the essence in the performance of this Agreement and that timely completion of the Services is vital to the completion of the Project by the Commission. Consultant agrees to use its best efforts to expedite performance of the Services and performance of all other obligations of the Consultant under this Agreement and any other agreements entered into by the Commission which are managed or administered by the Consultant as a result of the Consultant's engagement hereunder.

g. Compliance with Laws. In performing its engagement under this Agreement, the Consultant shall comply with all applicable federal, state and local laws, including but not limited to, those referenced in subparagraphs (a) and (b) above and in the documents referred to in paragraph 2 of this Agreement.

h. Progress Meetings. Meetings to discuss the progress of the Project and/or to review the performance of the Consultant may be scheduled upon the Commission's request, at mutually agreeable times and locations, and the Consultant agrees to cause such meetings to be attended by appropriate personnel of the Consultant engaged in performing or knowledgeable of the Services.

i. Defects in Project. The Consultant shall notify the Commission immediately in the event the Consultant obtains knowledge of a defect in the Project or circumstances which could result in a Project delay or cost overrun.

5. Term.

a. The term of this Agreement shall begin upon the final execution of this Agreement, and, subject to the provisions of subparagraph (b) below, shall expire upon completion of the Services and acceptance thereof by the Commission or, if the Services are of an ongoing nature, on the completion date specified in such Request for Services. The Commission and the Consultant may, from time to time, by mutual agreement, extend the term of this Agreement by amending this Agreement.

b. The Commission shall have the right, at any time, to terminate the term of this Agreement, with or without cause, by written notice given to the Consultant at least thirty (30) days prior to the effective date of termination. In addition, the Commission shall have the right, at any time and from time to time, with or without cause, to suspend the performance of the Consultant hereunder with respect to all or any part of

the Services, by written notice given to the Consultant at least five (5) days prior to the effective date of suspension. Termination or suspension of this Agreement shall not relieve the Consultant from liability for the performance of any obligation of the Consultant under this Agreement performed or to have been performed by the Consultant on or before the effective date of termination or suspension. Provided the Consultant is not in default under this Agreement at the time of termination or suspension, the Commission agrees to pay to the Consultant, in accordance with the terms of this Agreement, all compensation and reimbursements due to the Consultant for periods up to the effective date of termination or suspension. In no event shall the Commission be liable to the Consultant for any loss, cost or damage which the Consultant or any other party may sustain by reason of the Commission terminating or suspending this Agreement as provided herein; provided, however, that the Commission may, in its sole discretion, reimburse the Consultant for actual expenses approved by the Commission.

c. If the Project, in whole or substantial part, is stopped for a period longer than thirty (30) days under an order of any court or other governmental authority having jurisdiction of the Project, or as a result of an act of government, such as a declaration of national emergency making materials unavailable, through no act or fault of the Consultant, or if the Commission fails to make any payment or perform any other obligation hereunder, the Consultant shall have the right to terminate this agreement, by written notice given to the Commission at least seven (7) days prior to the effective date of termination, and shall have the right to recover from the Commission all compensation and reimbursements due to the Consultant for periods up to the effective date of termination.

6. Compensation of Consultant; Reimbursement for Expenses. The Commission shall compensate the Consultant for the Services in the manner set forth Schedule C of this Agreement. In addition, the Commission shall, upon submission of detailed invoices by the Consultant, no more frequently than once every 30 days, and approval by the Commission of those invoices, reimburse the Consultant for all Reimbursable Expenses. As used in this paragraph, the term "Reimbursable Expenses" shall mean those expenses identified as such in this Agreement.

The costs of such Sub-Consultants shall be payable as Reimbursable Expenses.

e. Legal, Auditing and other Services. The Commission shall arrange and pay for such legal, auditing, insurance counseling and other services as the Commission, in its sole discretion, may determine to be required for the Project. Such payments shall not include legal or auditing expenses arising out of or relating to any errors or omissions, or claimed errors or omissions, of Consultant.

f. Designated Representatives. The Commission may designate, at its sole discretion, one or more representatives authorized to act in its behalf.

10. Default.

a. Events of Default. Any one or more of the following occurrences shall constitute an Event of Default under this Agreement:

i. Failure or refusal on the part of the Consultant duly to observe or perform any obligation or agreement on the part of the Consultant contained in this Agreement, which failure or refusal continues for a period of ten (10) days (or such longer period as the Commission, in its sole discretion, may determine if such failure is not capable of being cured within such ten (10) day period) after the date on which written notice thereof shall have been given to the Consultant by the Commission;

The Project Manager will have thirty (30) business days to respond in writing to the dispute by supplementing the submission or providing its own submission to the Executive Director. Failure by the Project Manager to respond will not be deemed to be an admission of any

allegations made in the request for dispute resolution, but will be deemed to constitute a waiver of the opportunity to respond to such allegation(s), if any. The Executive Director's decision may thereafter be reached in accordance with such other information or assistance as she or he may deem reasonable, necessary or desirable.

c. Effect. The Executive Director's final decision will be rendered in writing no more than forty-five (45) business days after receipt of the response by the Project Manager was filed or was due unless the Executive Director notifies the Consultant that additional time for the decision is necessary. In addition, the Consultant shall not, without the prior written consent of the Commission, prepare or distribute any news releases, articles, brochures, advertisements or other materials concerning this Agreement, the Project or the Services.

13. Assignment. The Consultant acknowledges that the Commission is induced to enter into this Agreement by the personal qualifications of the principals, staff and employees of the Consultant and agrees, therefore, that neither this Agreement nor any right or obligation hereunder may be assigned by the Consultant, in whole or in part, without the prior written approval of the Commission. This Agreement shall not be modified, amended or in any way altered except by an instrument in writing signed by both of the parties hereto.

c. Force Majeure. Neither of the parties shall be liable to the other for any delay or failure in performance hereunder due to causes which are beyond the control of the party unable to perform. If a force majeure occurs, the party delayed or unable to perform shall give prompt notice to the other party, and the Commission may, at any time during the continuation of the force majeure event, elect to suspend the performance of the Consultant under this Agreement for the duration of the force majeure. The Commission shall not be obligated to pay for Services to the extent and for the duration that performance thereof is delayed or prevented by force majeure, but, provided the Consultant is not in default of any obligation of the Consultant hereunder, the Commission shall pay to the Consultant, according to the terms hereof, all compensation and reimbursements due to the Consultant for periods up to the effective date of suspension.

d. Governing Law. This Agreement has been negotiated and executed in the State of Illinois and shall be construed under and in accordance with the internal laws of the State of Illinois.

All notices required to be given hereunder shall be given in writing and shall be hand delivered or sent by United States certified or registered mail, postage prepaid, addressed to Commission and to the Consultant at their respective addresses set forth above. If given as herein provided, such notice shall be deemed to have been given on the date of delivery, if delivered by hand, and on the second business day after mailing, if given by mail. Consultant will need to subcontract a qualified driller and a geotechnical laboratory.

Boring Location Plan

Consultant shall develop a boring location plan based on the site characteristics and minimum requirements of the attached proposed boring location plan (Figure 1). The location and depth of proposed borings shall be indicated on a sketch accompanying the Consultant's proposal. If the Consultant finds it necessary to change the location and depth of any of the proposed borings, the PBC Project Manager shall be notified and a new location or depth shall be agreed upon between the PBC Project Manager and the Geotechnical Engineer.

Sampling and Testing

Benchmark: Consultant shall establish one permanent benchmark with a description and elevation to the nearest 0.01 feet and reference its elevation to the official City of Chicago datum.

Borings: The following are suggested guidelines for the number and depth of soil borings. However, the Consultant is responsible for developing and recommending his/ her own plan.

- Number of Soil Borings

- Library Building: Drill a total of nine soil borings at locations as shown in Figure 1. This will include three soil borings along each side of the building with one at each corner and one at the center as shown in Figure 1.
 - Parking Area: Drill six soil borings, three in each row, at locations as shown in Figure 1.
 - It is anticipated a walk through of the project site will take place between the PBC Project Manager and the Consultant to confirm and determine the exact and final soil boring locations prior to the drilling.
- **Depth of Soil Borings**
- Library Building: The center soil boring (Figure 1) for the library building shall be drilled to 50 feet depth or to refusal (50 blows/6 inches of penetration), whichever occurs first; the remaining eight soil borings shall be drilled to 15 feet depth. The 50-foot soil boring shall be drilled first, and based on the subsurface conditions at that location the depths of the remaining soil borings may need to be adjusted in the field.
 - Parking Area: Three of the soil borings for the parking lot area shall be drilled to 5 feet depth and three at 15 feet depth since these will be used for the environmental assessment; however, the depth of these soil borings may need to be adjusted based on the soil borings information from the soil borings adjacent to the parking lot area.

Soil borings shall be drilled in accordance with the American Society for Testing and Material (ASTM) Standard D 1586, Penetration Test and Split-Barrel Sampling of Soils. Soil borings shall not be terminated in loose and/or soft soils, consult with PBC Project Manager prior to the termination of that soil boring to ensure that the available data collected will provide adequate design information. If cohesive soils are encountered, undisturbed soil samples shall be obtained with Shelby Tube sampler in accordance with ASTM Standard D 1587, Thin-Walled Tube Sampling of Soils. Obtain one undisturbed sample for each 10 feet of cohesive soil encountered. Record groundwater level measurements during, at completion of boring, and 24 hours following the completion of the boring, as applicable. The geotechnical Engineer shall advise the PBC Project Manager as to any further exploration and testing required to obtain information that the Engineer may require for a professional interpretation of subsoil conditions at the building site. Retain a Surveyor to stake out the boring locations and accurately establish, by engineer's level or transit, the ground surface elevation of each boring.

Soil borings, to confirm the feasibility of infiltration designs or refine their design or locations, are to be located at the proposed infiltration device location. Provide data / information per City of Chicago Stormwater Management Guidance Manual Section 3.2.1.1 Geotechnical Investigations (got to URL <http://www.cityofchicago.org> and follow these links: City Departments>Environment>Initiatives & Programs>Water Quality & Stormwater Management).

Percolation Test (where infiltration methods are expected to be feasible): Develop percolation test plan based on the site characteristics and minimum requirements of the attached proposed test location plan. The proposed test locations shall be indicated on a sketch accompanying the Consultant's proposal and include proposed percolation test procedures. The percolation tests should refer to guidelines for BMPs in City of Chicago Stormwater Management Ordinance Manual, Section 3.2.1.1 Geotechnical Investigation.

Locate tests at proposed parking and landscaped areas, unless specific locations provided by the PBC Project Manager.

Drilling and Sampling Methods: The Consultant shall perform drilling and sampling in accordance with ASTM Standards D 1586 and D 1587, as applicable. Standard Penetration Test N values shall be recorded, as a minimum at 2.5, 5.0, 7.5, and 10.0 feet depths and then at 5.0-foot intervals there onwards. Soil samples shall be classified in accordance with ASTM Standards D 2487 and D 2488. Samples shall be preserved and field logs prepared by either a Geotechnical Engineer or an experienced soils technician under the supervision of a Geotechnical Engineer. The depth of the borings is to be determined by the Geotechnical Engineer based on the anticipated foundation loads given above and the expected soil profile in the area. Unconfined compressive strength values of cohesive soil samples, using a pocket penetrometer, shall be obtained in the field and recorded on the field logs as applicable.

Laboratory Testing Requirements

Library Building Area Soil Samples: As a minimum, assume one representative soil sample from each soil layer encountered in each soil boring for laboratory testing as follows:

- Cohesionless (granular) Soils: Particle size distribution (ASTM D 422) and Unified Soil Classification (USCS) per ASTM D 2487/D 2488.
- Cohesive (clayey) Soils: #200 Sieve Size (ASTM D 1140), Atterberg Limits (Liquid Limit and Plastic Limit) per ASTM D 4318, USCS per ASTM D 2487/D 2488, Unconfined Compressive Strength of Cohesive Soils (ASTM D 2166) (one test per boring), and One-Dimensional Consolidation Properties of Soils (ASTM D 2435) (0 to 2 tests for the entire project depending on the soil types encountered).

Parking Lot Area Soil Samples: As a minimum, assume one representative soil sample from each soil layer encountered in each of these soil borings for laboratory testing as follows:

- Cohesionless (granular) Soils: Particle size distribution (ASTM D 422) and USCS per ASTM D 2487/D 2488.
- Cohesive (clayey) Soils: #200 Sieve Size (ASTM D 1140), Atterberg Limits (Liquid Limit and Plastic Limit) per ASTM D 4318, USCS per ASTM D 2487/D 2488, and California Bearing Ratio (ASTM D1883).

Field Measurements

- In case of the presence of cohesive soils, pocket penetrometer values shall be obtained to record the unconfined compressive strength values.
- Groundwater levels during, at completion of boring, and 24 hours following the completion of the boring (if feasible) shall be obtained, as applicable.

Reports

Field and Laboratory Reporting Requirements

Prepare reports in accordance with the following items:

1. Record all data in accordance with the latest ASTM standards.
2. Include with the report a chart illustrating the soil classification criteria and the terminology and symbols used on the boring logs.
3. Identify the ASTM standards utilized. For percolation tests, describe test procedures.
4. Provide a site plan giving dimensioned locations of test borings and percolation tests.
5. Provide vertical sections for each boring plotted and graphically presented showing number of borings, sampling method used, date of start and finish, surface elevations, description of soil and thickness of each layer, depth to loss or gain of drilling fluid, hydraulic pressure required or number of blows per foot, and depth and elevation of ground water. Note the location of strata containing organic materials, wet materials or other inconsistencies that might affect engineering conclusions.
6. Describe the existing surface conditions, and provide a figure showing generalized subsurface as well as summarize the subsurface conditions.
7. Report all laboratory determinations of soil properties.
8. Report results of borings for infiltration practices and of percolation tests per Chicago Stormwater Management Guidance requirements to support on-site stormwater management strategies.

Disposition of Samples: Retain samples at the Consultant's office until foundation installation is complete, and then dispose all remaining soil samples at a Subtitle D Landfill Facility.

Foundation Engineering Evaluation and Recommendations

Evaluation and Recommendations: The Consultant shall analyze the information developed by investigation and submit a professional evaluation and recommendations for the necessary areas of consideration, including, but not limited to, the following:

1. Foundation support of the structure and slabs, including allowable bearing capacity, recommended foundation depths/elevations, foundation design recommendations (shallow and/or deep foundations) and anticipated settlements.
2. Anticipation of, and management of, groundwater for design of structures and pavements.
3. Material and compaction requirements for site fill, construction backfill, and for the support of structures and pavements.
4. Vertical subgrade modulus for design of pavements or slabs.

Presence at Meetings

The Consultant shall be available for two (2) meetings to discuss the investigation results to the PBC Project Manager and assigned Civil and Structural Engineering team members.

Right of Entry

The Consultant shall contact the PBC Project Manager for information regarding access to the site. A Right-of-Entry must be obtained to gain access to any property not yet controlled by the Public Building Commission. Absolutely no work shall begin without advance written notice to the property owner and the Public Building Commission. The Consultant shall take all precautions to prevent damage to property and shall restore the site to the condition existing prior to the Consultants' work.

Deliverables

Provide draft electronic report along with the text in MSWord for PBC reviews. After incorporating comments, submit three hard copies of the Final Report and one electronic PDF file on CD to the PBC Project Manager within 30 days following the authorization to begin work or one week after receiving comments.

The Geotechnical Investigation and Engineering shall be completed and the report delivered to the PBC Project Manager within thirty (30) business days after written authorization to proceed.

The Public Building Commission of Chicago may reproduce the report without modifications and distribute the report in connection with the use or disposition of the property without incurring obligation for additional compensation to the Consultant.

Dear Business Owner:

Congratulations! After reviewing the information that you supplied, we are pleased to inform you that your firm has been granted certification as a Minority Business Enterprise (MBE) under the Business Enterprise Program for Minorities, Females, and Persons with Disabilities.

This full certification is valid for a period of three years from the date of this letter. Following this full certification, on an annual basis, at least 60 days prior to the anniversary day of your certification, you will be required to complete a No-change Affidavit form that must be submitted to BEP as a condition of continued certification. In addition, should any changes occur in ownership and/or control of the business, or other changes affecting the firm's operations, you are required to notify this office within two weeks. Failure to return the annual No-change Affidavit or notify our office of any such changes will result in decertification of your firm.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

Note. If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,
