I am pleased to submit the Comprehensive Annual Financial Report (CAFR) of the Public Building Commission of Chicago (Commission or PBC) for the years ended December 31, 2020 and 2019. Responsibility for both the accuracy of the data and completeness of the presentation, including all disclosures, rests with the Commission. The purpose of the CAFR is to provide complete and accurate information that complies with general accepted accounting standards (GAAP). The Commission's management has provided a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the Management's Discussion and Analysis (MD&A)—the two should be read in tandem. The Commission's MD&A can be found immediately following the independent auditors' report.

The Commission's internal control structure seeks to provide reasonable assurances that organizational assets are protected from loss and misuse. These reasonable assurances are not absolute as the Commission must balance the cost of control with the benefits derived. In an effort to further enhance its internal control program, the Commission continues to increase the number of approved policies and procedures in financial management and other administrative areas of the organization; maintains an anonymous fraud hotline, as well as the utilization of an Inspector General function.

Authority

The Commission is a municipal corporation created pursuant to the provisions of the Public Building Commission Act (50 ILCS 20 et. seq.) (the Act), adopted by the Legislature of the State of Illinois on July 5, 1955. The following municipal corporations joined in the organization of the Commission in 1956: the City Council of the City of Chicago, the Board of Commissioners of the County of Cook, the Board of Commissioners of the Forest Preserve District of Cook County, the Board of Education of the City of Chicago, the Metropolitan Sanitary District of Greater Chicago (currently named the Metropolitan Water Reclamation District of Greater Chicago) and the Board of Commissioners of the Chicago Park District. Pursuant to Section 14 of the Act, the Commission remains an independent agency, separate and apart from any other municipal corporation or public or governmental agency.

Governance

The Act provides for the appointment of members of the Board of Commissioners by the above municipal corporations. Six of the eleven members are appointed by the Mayor of the City of Chicago with the advice and consent of the City Council. The remaining five members are appointed by the above municipal corporations. Qualifications of the Commissioners include experience in real estate management, building construction, or finance. Please see the organization chart following this transmittal letter for the current membership of the Board of Commissioners.

Pursuant to Section 8 of the Act, the Board of Commissioners has adopted By-laws, as amended and restated from time to time, governing the conduct and management of the corporate affairs of the Commission. The By-laws provide for the establishment of two committees of the Board of Commissioners, the Administrative Operations Committee and the Audit Committee. Each Committee is comprised of three members of the Board of Commissioners, appointed by the Chairman. The meetings of the Committees are open, public meetings and written and oral reports are provided to the Board of Commissioners following each meeting.

The Administrative Operations Committee provides consultation to the Executive Director with respect to the management and administration of the affairs of the Commission. These affairs include professional service agreements, including those for architects, engineers, and other construction and design experts; employment and personnel matters; and, compensation, pension and employment benefits.

The Audit Committee meets with the Commission's independent auditors at least once each year, reviews the Commission's financial statements and the scope and results of the Commission's audits, recommends the appointment of the Commission's independent auditors annually, monitors the internal controls and practices of the Commission, and reviews the Commission's annual report.

Purpose of the Commission

The Commission was created for the statutory purpose of constructing, acquiring, enlarging, improving, repairing or replacing public improvements, buildings or facilities to be used by governmental agencies in providing essential health, safety and welfare services. The powers and duties of the Commission as further enumerated in Section 14 of the Act include: selecting, locating and designating sites or areas to be acquired and improved; and acquiring fee simple title to the real property to be improved, either by purchase, gift or exercise of the power of eminent domain.

The Commission is authorized to demolish, repair, alter, improve or construct, furnish, equip, maintain, and operate facilities to be used by agencies in providing governmental services. The Commission can make on and off-site improvements required for such facilities. The Commission can employ, fix compensation and discharge, without regard to the Civil Service Act, engineering, architectural, construction, legal and financial experts necessary to accomplish its purpose.

The Commission can rent space and execute written leases evidencing rental agreements and enter contracts with respect to insurance or indemnification against risks of loss. The Commission may accept donations, grants or gifts in support of the Commission's purposes. The Commission can borrow money and issue revenue bonds in order to provide funds for effectuating the statutory purposes. Further, the Commission may enter into intergovernmental agreements with various public agencies to accomplish their respective governmental objectives.

In addition to managing all phases of construction projects on behalf of its clients, the Commission also serves as the owning and operating entity for the Richard J. Daley Center (Daley Center), including Daley Plaza and the public sculpture located in its center. The

financial statements address the overall financial position and results of these activities and operations.

Local Economy

The City of Chicago has one of the world's largest and most diversified economies, with more than four million employees and generating an annual gross regional product (GRP) of \$609B. The city is an efficient economic powerhouse, home to more than 400 major corporate headquarters, including 36 in the Fortune 500.

Powered by a diverse economy, strong transportation infrastructure and outstanding research institutions, Chicago is a global city poised to remain competitive in the coming decades. Chicago has achieved distinction in a range of important categories that demonstrate growth and strength.

Home to an unrivaled talent pool, Chicago is centrally located at the nexus between European and Asian markets, and the North American Free Trade zone. The region features a strong, globally diverse economy larger than that of many countries, has a uniquely friendly and welcoming business community, and boasts one of the best quality-of-life to cost-of-living ratios in the nation.

In addition, Chicago's cultural diversity is enhanced by its more than 250 theaters, 56 museums, 225 music venues and more than 700 public works of art, many of which are in or near Chicago's nearly 600 parks. Add to that an iconic skyline along much of the City's 26 miles of lakefront and it's no wonder Conde Nast Traveler readers named Chicago the Best Big City in the U.S.

Convention activity is another major component of Chicago's vitality along with the various local attractions, museums, festivals, and professional sports teams providing significant contributions.

Major Initiatives

Designing and constructing a public facility is a complex and detailed process. Since 1956, the Public Building Commission of Chicago (PBC) has been committed to this task and has developed cutting edge environmentally responsible facilities that has the infrastructure in place to provide public services safely and effectively.

This requires an integrated, holistic design and construction approach in which the PBC, the client, the design team, users, and the construction team collaborate fully and communicate effectively. Through these collaborative partnerships in 2020, the PBC successfully constructed or renovated 18 projects that represents \$308 million in investment across the city. These projects include fourteen Chicago Public Schools, two Chicago Public Libraries and the largest firehouse ever constructed in the city proper on behalf of the Chicago Fire Department.

We are pleased to report that from these projects more than 6,367 people earned over \$60.5 million with Minority/Women Business Enterprises earning more than \$99.7 million.

We are equally proud to have completed a \$2 million citywide energy efficiency project on behalf of the Metropolitan Water Reclamation District while remaining virtually engaged with a variety of constituents. The PBC hosted or participated in a variety of conversations on ways to better improve our processes and provided those seeking a way to enter or further their development in the construction industry with opportunities to learn how to do business with the PBC.

In addition, we continued our success with 'Design-Build' and 'Construction Management at Risk' delivery methods. Within these delivery methods the PBC was able to assist the design-build and construction manager teams in hosting several community outreach events and had representatives lead or attend more than twenty virtual events to raise awareness of the myriad available PBC opportunities.

The PBC continuously seeks new and innovative prospects to increase diverse business participation. These efforts ensure the PBC's commitment to economic sustainability is furthered with a workforce as diverse as the communities within Chicago.

The PBC is committed to delivering cost efficient projects on behalf of our clients. The PBC works in close concert with our user agencies to develop project approaches that meet both their social and financial programming goals. Throughout the development of a project, we provide budget and cost information to managers, clients, commissioners and other stakeholders.

The Commission's fiscal management demonstrates how the PBC remains committed to the stewardship of the public fund through exemplary cost and schedule control. These control measures allow for consistent delivery of quality public facilities, either new or renovated, and significant infrastructure and technology projects, on time and under budget while also furthering a commitment to both environmental and economic sustainability.

Clients

The Commission proud to call the following public agencies partners:

City of Chicago

Department of Fleet and Facility Management (2FM)

Department of Family and Support Services
Department of Finance
Department of Planning and Development

Chicago Fire Department
Chicago Police Department

Sister Agencies

Chicago Public Library
Chicago Housing Authority
Chicago Public Schools

Chicago Park District
City Colleges of Chicago
Chicago Transit Authority

Cook County

Department of Homeland Security and Emergency Management
Office of the Sheriff
Forest Preserves

Metropolitan Water Reclamation District of Greater Chicago

Leadership in Energy and Environmental Design (LEED)

The Commission continues its longstanding commitment to environmental sustainability by building LEED certified facilities. LEED is a performance-based rating system developed by the U.S. Green Building Council (USGBC) that measures the “greenness” of a building and the success of its sustainable design and construction. The seven areas considered by LEED in determining ratings are energy efficiency, reduction of urban heat island effect, stormwater management, reduction of water use, incorporation of transportation alternatives, diversion of construction, and demolition waste from landfills which include economic considerations such as use of local building materials and generation/retention of green jobs.

In ascending order, LEED ratings range from “Certified” to “Silver,” “Gold” and “Platinum.” The Commission has established a program-wide objective to achieve no less than LEED Silver Certification for every project designed and constructed. In some cases, LEED Gold is targeted. Regardless of the certification level pursued, success on the project relies on client agency buy-in and significant involvement in decision-making throughout the project process, as well as commitments to long term maintenance and operation of each facility.

As a public developer and responsible steward of the public fund, the Commission focuses on both environmental and economic sustainability. These two goals are inextricably linked because the inclusion of environmentally-sustainable design, ultimately, lowers the life-cycle and utility costs, which, in turn, minimizes the drain on natural resources.

Due in large part to the PBC’s commitment to green buildings, the City of Chicago is a national leader in LEED-certified municipal buildings with 90 of which were developed by the PBC. The volume of public buildings certified under LEED standards is a strong indication of the commitment to sustainable design embraced by the City of Chicago.

Two PBC projects achieved LEED Certification in 2020

- Prussing Elementary School – LEED Silver
- Daley College's Manufacturing Technology & Engineering Center – LEED Gold

At the close of 2020, the PBC achieved LEED certification on the following facilities:

- 45 public schools
- 18 branch libraries
- 6 fire houses
- 4 police stations
- City colleges
- 8 park facilities
- 8 other municipal buildings, including the Daley Center

This distinction is important not only to underscore that Chicago has a commitment to being the greenest city in the nation, but also because it has reduced the impact on the environment for generations to come.

Please see Statistical Section for additional information regarding LEED.

Economic Opportunity and Human Sustainability

The Commission prioritizes the enhancement of the economic opportunity and human sustainability component of our projects. By implementing contract provisions that make our projects more accessible, the Commission contributes to the overall mission of empowering minority and women business enterprises (MBE/WBE) and minority and women workers by spurring job creation in communities that have historically had disparate access to such work.

The PBC believes that Chicago will reach its full potential when its diverse populations are represented at the business table and when every hardworking citizen with the drive and desire to succeed in their chosen occupation has a pathway to success.

These following contract provisions are routinely enforced in the management of Commission projects.

MBE/WBE Participation: Construction contracts for the Commission establish minimum MBE/WBE participation goals at 26% MBE and 6% WBE. The Commission works closely with the General Contractor to monitor and ensure the contractor meets or exceeds these goals.

Minority and Women Worker Participation: At the time of bid award, the General Contractor is afforded an incentive for the proposed use of minority and female journeyworkers, apprentices, and laborers on the project. Upon award, the proposed use becomes a contract requirement which is monitored during construction via certified payrolls.

Bid Incentive for Apprentice Utilization: Up to a 1% bid incentive on future projects is offered to contractors successful in using apprentices who are graduates of a City Colleges of Chicago Technology Training Program.

Local Business Participation Standard: General Contractors located in the City of Chicago and awarded Commission projects must subcontract at least 25% of the

contract value to Chicago subcontractors. General Contractors located outside the City of Chicago must award at least 35% of the work to local subcontractors.

Projects completed in 2020 total \$99,707,773 as paid to date. These projects have achieved 29.91% or \$79,177,521 MBE participation and 7.76% or approximately \$20,530,251 WBE participation. In addition, \$12.6 million has been paid to professional administrative service contracts in 2020. Of those contracts, 37.71% or \$4.8 million were MBE participation and 10.56% or \$1.3 million WBE participation.

Please see the Statistical Section for additional information regarding components of this program.

Public Information

The PBC is pleased to offer extensive information on its programs and projects. The Commission's website, www.pbcchicago.com, includes information on all current projects, including contractors, payment applications funded by the Commission, building and site details, along with pictures of the projects throughout construction. The website includes information on historical Commission projects as well such as a site map and date of opening. The website includes information for prospective vendors on how they can partner with the Commission on future projects. All Board actions from past meetings along with agendas for upcoming meetings are posted there as well.

A log of all Freedom of Information Act Requests (FOIA) is also included on the website. Financial statements are posted, along with links to the client's websites. Furthermore, the Commission offers a free alert service that notifies all interested parties by e-mail each time a new contracting opportunity is available. These notices help companies pre-qualify for bidding opportunities as well as find sub-contracting opportunities. The Commission is proud to provide this level of information and transparency for all aspects of its business practices.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Commission for its CAFR for the fiscal year ended December 31, 2020. This was the tenth consecutive year that the Commission applied for and received this prestigious award, which is the highest form of recognition for excellence in state and local government financial reporting. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to conform to the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Since 2011 the PBC has been awarded more than 120 industry awards for excellence in program and project development. The awards represent external validation of PBC's approach to public development and implementation of best practices. In addition, the awards allow for the PBC to highlight the successful development of projects and programs within the industry.

Independent Audit

The Act requires the Commission's financial statements to be audited annually by independent certified public accountants. The fiscal year 2020 audit was conducted by Deloitte & Touche LLP (Deloitte) with support from Washington, Pittman & McKeever, a minority-owned certified public accounting firm and Velma Butler Associates, a woman-owned certified public accounting firm. An unmodified audit opinion, rendered by Deloitte, is included in the financial section of this report.

Acknowledgements

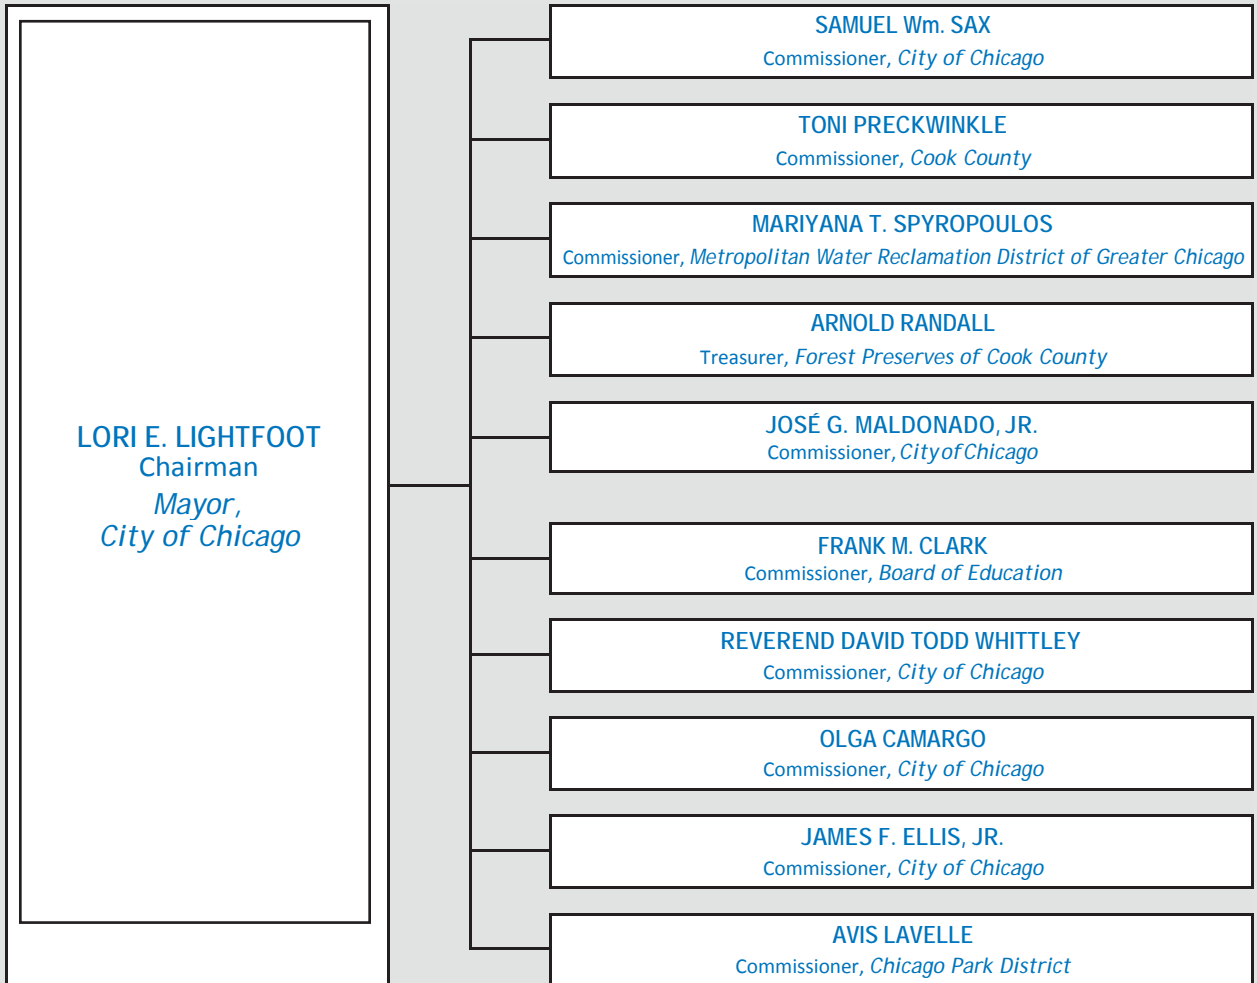

This CAFR could not have been prepared without the tremendous leadership of our Board of Commissioners and certainly not without the dedication help of the entire staff of the PBC. I extend my appreciation to the team for their hard work on this report.

Respectfully submitted,

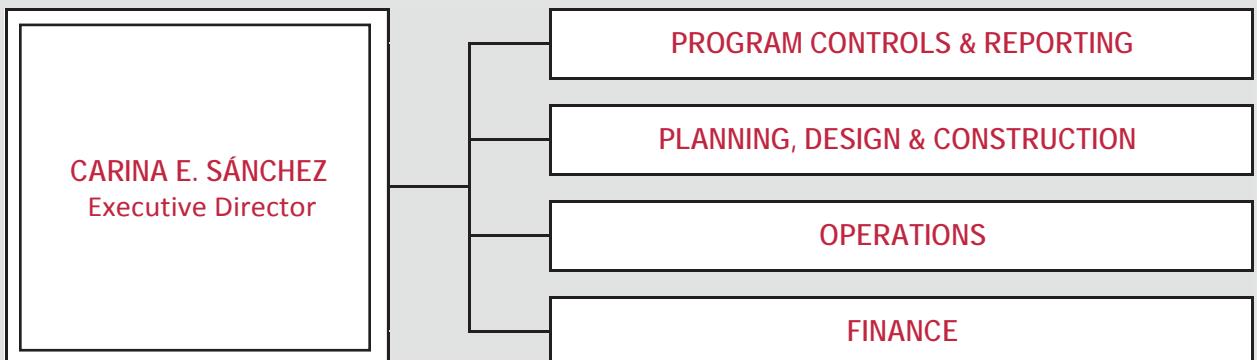

Carina E. Sanchez

PUBLIC BUILDING COMMISSION OF CHICAGO

Comprehensive Annual Financial Report

Financial Section

This section contains an unqualified independent auditors' report, Management's Discussion and Analysis and the Commission's basic financial statements.

INDEPENDENT AUDITORS' REPORT

To the Public Building Commission of Chicago
Chicago, Illinois

Report on the Financial Statements

We have audited the accompanying basic financial statements of the Public Building Commission of Chicago (the "Commission"), which comprise the statements of net position as of December 31, 2020 and 2019, and the related statements of revenues, expenses, and changes in net position and cash flows for the years then ended, and the related notes to the basic financial statements, which collectively comprise the Public Building Commission's basic financial statements.

Management's Responsibility for the Basic Financial Statements

Management is responsible for the preparation and fair presentation of these basic financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the basic financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these basic financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the basic financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the basic financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the basic financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the Commission as of December 31, 2020 and 2019, and the changes in financial position, results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

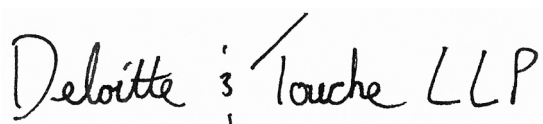

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Commission's basic financial statements. The introductory and statistical sections, as listed in the foregoing table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

The image shows a handwritten signature in black ink. The signature reads "Deloitte" followed by a vertical separator consisting of three horizontal lines, and then "Touche LLP". The handwriting is cursive and fluid.

June 30, 2021

PUBLIC BUILDING COMMISSION OF CHICAGO

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management of the Public Building Commission of Chicago (the "Commission" or "PBC") provides the following narrative overview and analysis of the Commission's financial performance during the years ended December 31, 2020, 2019, and 2018. Please read it in conjunction with the Commission's basic financial statements, which follow this section.

Introduction

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board.

The Commission's basic financial statements for the years ended December 31, 2020 and 2019, have been prepared using proprietary fund (enterprise fund) accounting that uses the same basis of accounting as private sector business enterprises. The basic financial statements reflect that the Commission is operated under one enterprise fund.

Overview

The Commission was created in 1956 pursuant to Illinois legislation as an independent governmental unit responsible for building and renovating public buildings and facilities for local government branches and agencies in Chicago and Cook County. The Commission's organizing and client agencies include the City of Chicago, the County of Cook, the Chicago Park District, the Chicago Public Schools, the Metropolitan Water Reclamation District, the Cook County Forest Preserve District, the Chicago Public Library, the Chicago Transit Authority, and the City Colleges of Chicago.

The Commission's operating mission is to deliver high-quality capital projects on time, on budget, as specified. The Commission's 11-member Board of Commissioners provides oversight and direction for the Commission's activities from land acquisition through the stages of project planning, design, and construction. Additionally, the Commission serves as the owning and operating entity for the Richard J. Daley Center ("Daley Center"). The basic financial statements address the overall financial position and results of these activities and operations.

Basic Financial Statements

The Commission reports on an economic resources measurement focus and the accrual basis of accounting. Revenue is recognized when earned, which generally occurs as project construction expenses are incurred, and expenses are recognized when incurred. The Commission's basic financial statements include a statement of net position; a statement of revenues, expenses, and changes in net position; and a statement of cash flows. Notes to the basic financial statements are also included.

The statements of net position present information on the assets and liabilities, with the difference reported as total net position. These statements provide an indication of the assets available to the Commission for project construction, debt service, and administrative operation. The Commission anticipates that assets for project development will fluctuate over time based on the capital programs of its client agencies.

Assets for project development are provided to the Commission directly by the client agencies or from Commission-issued long-term revenue bonds, which are supported by lease agreements with client

agencies. Funding received and held by the Commission for project development in excess of expenditures is reported as funds held for future project revenue. The capital assets of the Commission reflect its role as the owning and operating entity of the Daley Center. The Commission does not capitalize other facilities it builds for client agencies, as the ownership of the facilities remains with the client agencies upon completion of the projects or upon expiration of the facility leases between the Commission and client agencies.

The statements of revenues, expenses, and changes in net position report the operating revenues and expenses and other revenues and expenses of the Commission for the year with the difference reported as the increase or decrease in net position for the year. These statements provide an indication of the project development expenses, the Daley Center operating expenses, Commission administrative operating expenses, and interest income and expense. Project revenues are recognized to the extent of current project expenses. Principal and interest on bonds issued by the Commission are to be covered by lease rental payments from its client agencies.

The Commission does not have authority to levy and collect taxes and relies on fees for project development services provided to client agencies and fixed lease administrative fees to fund its operations. The Commission is limited to providing its services to only governments and agencies. Therefore, the Commission anticipates fluctuations in its operating revenues based on the volume of activity requested by client agencies. The Commission anticipates it will continue to serve a significant role in assisting client agencies in the development of new and enhanced public facilities.

The statements of cash flows report cash and cash equivalent activity for the year resulting from operating activities, capital and related financing activities, and investing activities.

The notes to the basic financial statements provide required disclosures and other information that is essential to a full understanding of the basic financial statements.

Financial Information

The total assets of the Commission decreased by approximately \$9 million in 2020, in comparison to 2019 primarily due to a decrease in the Commission's investments, which reflect decreases due to fluctuations in the markets brought about by the coronavirus pandemic. Total assets of the Commission decreased by \$37 million in 2019, in comparison to 2018, primarily due to a decrease in project receivables due from other agencies. This decrease reflects changes in the number of active construction projects and the life cycle stage of these projects. Total liabilities of the Commission decreased by approximately \$7 million in 2020, compared to 2019, largely due to decreases in project related payables. Total liabilities of the Commission decreased by approximately \$36 million in 2019, in comparison to 2018, primarily due to the effect of a decrease in project related payables, as well as annual debt service.

The assets of the Commission exceeded liabilities by approximately \$70 million on December 31, 2020. Of this amount, \$49 million was included in net investment in capital assets and \$21 million was restricted for use by the Daley Center and for Commission operations. The Commission's total net position decreased by \$2 million and \$1 million respectively for the years ended December 31, 2020, and December 31, 2019. The decrease in net position for the year ended December 31, 2020, is attributable to decreases in investment income over the past two years and decrease in Other Revenues from 2019 to 2020.

The assets of the Commission exceeded liabilities by approximately \$72 million at December 31, 2019. Of this amount, \$50 million was included in net investment in capital assets and \$23 million was restricted for use by the Daley Center and for Commission operations. The Commission's total net position decreased by \$1 million for the year ended December 31, 2019 and increased by \$396,079 for the year ended

December 31, 2018. The decrease in net position for the year ended December 31, 2019, is attributable to decreases in project revenues and expenses.

Operating revenues for the years ended December 31, 2020, and 2019, were \$274.9 and \$243.9 million, respectively. Operating expenses were \$274.9 and \$243.6 million for the years ended December 31, 2020, and 2019, respectively. Both fluctuated based on the volume of construction activity as operating revenue includes project revenue, which is recognized to the extent of current construction costs.

Operating revenues for the years ended December 31, 2019, and 2018, were \$243.9 and \$333.7 million, respectively. Operating expenses were \$243.6 and \$330.3 million for the years ended December 31, 2019, and 2018, respectively. Both fluctuated based on the volume of construction activity as operating revenue includes project revenue, which is recognized to the extent of current construction costs.

For the year ended December 31, 2020, revenues and expenses increased in comparison to the prior year. PBC revenues and expenses are driven by the number of active construction projects. Fluctuations annually directly relate to the current project portfolio versus life cycle stage. Through our holistic design and construction approach, the PBC successfully constructed or renovated 18 public facilities, which include 14 Chicago Public Schools, two libraries and the largest firehouse in the city.

For the year ended December 31, 2019, revenues and expenses decreased in comparison to the prior year. PBC revenues and expenses continue to be driven by the number of active construction projects. Fluctuations annually directly relate to the current project portfolio versus life cycle stage. Driven by high-quality, cost-effective design and construction services, in 2019, the PBC successfully constructed or renovated 17 public facilities ranging from school buildings that provided students with cutting edge facilities to learn and succeed to a Manufacturing Technology and Engineering Center of the future.

For the year ended December 31, 2018, revenues and expenses increased in comparison to the prior year. The PBC's continued commitment to deliver quality public projects cost effectively resulted in the Commission netting an operating income of \$3.4 million. Work completed in 2018 included construction of a new elementary school, seven annexes, a high school renovation project, and a modular classroom building for with the Chicago Public Schools. Further, the work completed in 2018 also included the Whitney M. Young's Branch Library expansion and renovation on behalf of Chicago Libraries, as well as the Douglas Park Facility renovation for the Chicago Park District.

Summary of Condensed Financial Information at December 31, 2020, 2019, and 2018:

Capital Assets

At December 31, 2020, the Commission's \$49.3 million net investment in capital assets was net of accumulated depreciation of \$128.5 million and included a capital lease obligation of \$2.9 million. The Commission had \$180.7 million of gross capital assets, including \$11.7 million in land, \$71.3 million in the Daley Center building, \$95.4 million of building improvements to the Daley Center, as well as \$2.3 million of construction in process. During the year ended December 31, 2020, the Commission had capital additions of \$3.0 million.

At December 31, 2019, the Commission's \$49.5 million net investment in capital assets was net of accumulated depreciation of \$124.9 million and included a capital lease obligation of \$3.4 million. The Commission had \$177.7 million of gross capital assets, including \$11.7 million in land, \$71.3 million in the Daley Center building, \$94.4 million of building improvements to the Daley Center, as well as \$.39 million of construction in process. During the year ended December 31, 2019, the Commission had capital additions of \$1.4 million.

At December 31, 2018, the Commission's \$51.4 million net investment in capital assets was net of accumulated depreciation of \$121.2 million and included a capital lease obligation of \$3.8 million. The Commission had \$176.4 million of gross capital assets, including \$11.7 million in land, \$71.3 million in the Daley Center building, \$93.1 million of building improvements to the Daley Center, as well as \$.33 million of construction in process. During the year ended December 31, 2018, the Commission had capital additions of \$1.2 million.

A summary of changes in capital assets is included in Note 3 to the basic financial statements.

Long-Term Debt and Capital Leases Receivable

As of December 31, 2020, 2019, and 2018, the Commission had \$58.3 million, \$61.4 million, and \$64.3 million, respectively, in long-term debt principal outstanding. No additional long-term debt was incurred by the Commission for the year ended December 31, 2020.

On March 24, 2010, the Commission entered a tax-exempt lease purchase agreement for \$5.9 million to finance an energy performance contract relating to certain improvements at the Daley Center. On November 17, 2014, the Commission amended the tax-exempt lease purchase agreement effectively reducing the interest rate to 3.87%. As a result of this refunding on December 31, 2020, 2019, and 2018 \$2.9 million, \$3.4 million, and \$3.8 million of the amount financed was outstanding, respectively.

As of December 31, 2020, 2019, and 2018, the Commission had \$58.3 million, \$61.4 million, \$64.3 million, respectively, in capital leases receivable.

Summaries of changes in long-term debt, capital leases receivable, and capital lease obligations are included in Notes 4, 5, and 6, respectively, to the basic financial statements.

Requests for Information

This financial report is designed to provide the reader with a general overview of the Commission's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance at Richard J. Daley Center, 50 West Washington Street, Room 200, Chicago, IL 60602. This report is available on the Commission's website at www.pbcchicago.com.

PUBLIC BUILDING COMMISSION OF CHICAGO

NOTES TO BASIC FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Authorizing Legislation—The Public Building Commission of Chicago (the “Commission”), Cook County, Illinois, is a municipal corporation and body politic created under the provisions of the Public Building Commission Act of the Illinois Revised Statutes (the “Act”), approved on July 5, 1955, as amended. The Commission is authorized and empowered to construct; acquire; or enlarge public improvements, buildings, and facilities to be made available for use by governmental agencies and to issue bonds, which are payable solely from the revenues to be derived from the operation, management, and use of the buildings or other facilities constructed by the Commission or pledged revenues. The Commission has no stockholders or equity holders, and all revenues of the projects shall be paid to the treasurer of the Commission to be applied in accordance with the provisions of the respective bond resolutions and intergovernmental agreements.

The Act provides authority for the Commission to obtain permanent financing through the issuance of revenue bonds secured by leases with local governments or other users of facilities constructed or acquired by the Commission. The Act also provides authority for the Commission to obtain interim financing by issuing interim notes following the selection of an area or site for a requested project. The Commission has specific authority to accept donations, contributions, capital grants, or gifts.

Pursuant to the Act, the Board of Commissioners has 11 members; six members are appointed by the City of Chicago and one member each is appointed by the following: Cook County, Chicago Board of Education, Chicago Park District, Metropolitan Water Reclamation District of Greater Chicago, and the Cook County Forest Preserve. The chairman of the Commission is elected from among the members of the Board. The mayor of the city of Chicago currently serves as the chairman.

The accounting and reporting policies of the Commission conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units in the United States of America. Following is a description of the more significant of these policies.

Reporting Entity—As defined by GAAP established by the Governmental Accounting Standards Board (GASB), the financial reporting entity consists of the primary government, as well as any component units, which are legally separate organizations for which the elected officials of the primary government are financially accountable. The accompanying basic financial statements present only the Commission (the primary government), since the Commission does not have any component units.

Basis of Presentation—The accounts of the Commission are organized on the basis of fund accounting. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. The Commission maintains the following fund type:

Proprietary Fund—The Commission’s operations are accounted for in a single enterprise fund. Enterprise funds account for those operations financed and operated in a manner similar to private business enterprises. Under this method of accounting, an economic resources measurement focus and the accrual basis of accounting are used. Revenue is recognized when earned, and expenses are recognized when incurred. The basic financial statements include statements of net position; statements of revenues, expenses, and changes in net position; and statements of cash flows.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the Commission is funded from bond-financed projects, reimbursement projects, and payments from lessees. Operating expenses include construction costs, maintenance expenses, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Cash and Cash Equivalents—The Commission presents a statement of cash flows, which classifies cash receipts and payments according to whether they stem from operating, capital and related financing, or investing activities. Cash includes cash on hand.

Investments—Investments consist of money market (government bonds) mutual funds and U.S. Treasury obligations. Money market mutual funds with maturities of less than one year are carried at amortized cost, plus accrued interest, which approximates fair value. All other investments are carried at fair value. Investments as of December 31, 2020 and 2019, consist of \$24,814,869 and \$54,212,859, respectively, restricted for future capital construction and improvements related to Commission projects and for amounts held to cover future debt service principal and interest payments. Other investments as of December 31, 2020 and 2019, consist of \$8,207,975 and \$1,735,686, respectively, for use by the Richard J. Daley Center ("Daley Center") and for Commission operations.

Capital Leases Receivable—Capital leases receivable, discounted at the effective interest rate of each bond issue, are reflected as assets. The portion of the lease payments attributable to administrative and other period charges is not capitalized as a lease receivable. The corresponding revenue bonds are reflected as liabilities. The current portion of capital leases receivable as of December 31, 2020 and 2019, is \$3,225,000 and \$3,065,000, respectively.

Capital Assets (Daley Center)—The Commission capitalizes assets that it owns and operates with a cost of more than \$1,000 and a useful life greater than five years. Capital assets are recorded at cost. Cost includes major expenditures for improvements and replacements that extend useful lives or increase capacity and interest cost associated with significant capital additions. Depreciation of capital assets is computed using the straight-line method assuming the following useful lives:

	Years
Building	50
Building improvements	20

The Picasso sculpture that stands on Daley Plaza is artwork that is held for public exhibition and is to be preserved for future generations. The sculpture is not capitalized or depreciated as a part of the Commission's capital assets.

Other Assets—Other assets are composed of bond insurance premiums. The premiums are held as deferred assets and amortized over the lives of the bonds. Amortization is recognized as interest expense.

Compensated Absences—All salaried employees of the Commission are granted sick leave with pay at the rate of one working day for each month of service, up to a maximum accumulation of 175 days. In the event of termination, Commission employees are not reimbursed for accumulated sick leave and as such, the Commission does not have an accrual recorded.

All full-time employees of the Commission who have completed one year of service are entitled to vacation leave at varying amounts based on years of service. In the event of termination, an employee is reimbursed for accumulated vacation days up to a maximum accumulation of 40 days. Accrued vacation is included in accounts payable and accrued expenses in the statements of net position.

Long-Term Debt—Long-term debt is recognized as a liability. The amount that is payable within a one-year period is classified as current. The current portion of long-term debt as of December 31, 2020 and 2019, is \$3,541,446 and \$3,381,446, respectively.

Capital Lease Obligations—Capital lease obligations, discounted at the effective interest rate, are reflected as liabilities. The corresponding capital asset is reflected as an asset. The current portion of capital lease obligations as of December 31, 2020 and 2019, is \$495,454 and \$457,987, respectively.

Project Revenue—The Commission receives funding for bond-financed projects and reimbursement projects. Project revenue is recognized as the construction costs for the projects are incurred. Funding received, but unspent as of the end of the year, is included in funds held for future project revenue.

Other Revenue—Fees for project development services are recognized at different project milestones: board approval, construction start (notice to proceed), 50% construction completion, substantial completion, and project closeout. This methodology is consistent with the Commission’s use of the resources to manage the respective projects.

Rental Income—Annual lease rental payments are due on or before December 1 of each year. As these payments are received before December 31 that relate to the following years’ administrative expenses and debt service are recorded in rental income received in advance at December 31. Rental income is recognized in the year the related administrative expenses and debt service are incurred. Rental income includes amounts pledged under the lease agreements to cover all interest expense payments and administrative costs of the Commission’s debt.

Net Position—Net position includes net investment in capital assets, which represents net capital assets less outstanding debt, including any capital leases, that is directly attributable to the acquisition, construction, or improvement of those assets. Net position other than those included in net investment in capital assets are considered to be restricted under the enabling legislation that established the limited specific purpose of the Commission.

Use of Estimates—The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities at the date of the basic financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Adopted Accounting Standards—The Commission adopted GASB Statement No. 83, *Certain Asset Retirement Obligations* (“GASB 83”), which addresses accounting and financial reporting for certain asset retirement obligations (AROs). A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets will have to recognize a liability based on the guidance in this statement. GASB 83 also requires disclosure of information about the nature of a government’s AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. The provisions in this statement are effective for the Commission for the year ended December 31, 2020, but did not have an impact on the basic financial statements of the Commission.

GASB Statement No. 84, *Fiduciary Activities* (“GASB 84”) improves the guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. GASB 84 was effective for the Commission for the year ending December 31, 2020, but did not have an impact on the basic financial statements of the Commission.

GASB Statement No. 88, *Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements* (“GASB 88”) will improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. GASB 88 was effective for the Commission for its year ending December 31, 2020. However, it did not have an impact on the basic financial statements of the Commission.

GASB Statement No. 90, *Majority Equity Interests an amendment of GASB Statements No. 14 and No. 61* (“GASB 90”) aims to improve the consistency and comparability of reporting a government’s majority equity interest in a legally separate organization and the relevance of financial statement information for certain component units. GASB 90 was effective for the Commission for the year ending December 31, 2020, but it did not have an impact on the basic financial statements of the Commission.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*—(“GASB 97”) The statement aims to provide more consistent financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans, while mitigating the costs associated with reporting those plans. GASB 97 will enhance the relevance, consistency, and comparability of (1) the information related to Section 457 plans that meet the definition of a pension plan and the benefits provided through those plans and (2) investment information for all Section 457 plans. Certain elements of GASB 97 are effective immediately, including the removal of the requirement to treat a primary government that performs the duties of a governing board as the governing board in absence of a governing board. The requirements in paragraphs 4 and 5 were effective upon issuance in the fiscal year 2020 and adoption of these had no impact on the financial statements of the Commission. The remainder of GASB 97 will be effective for the Commission beginning with its year ending December 31, 2022.

Upcoming Accounting Standards—Other accounting standards that the Commission is currently reviewing for applicability and potential impact on the financial statements include:

GASB Statement No. 87, *Leases* (“GASB 87”) requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. GASB 87 will establish a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB 87, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. GASB 87 will increase the usefulness of governments’ financial statements by requiring reporting of certain lease liabilities that are currently not reported. GASB 87 will be effective for the Commission beginning with its year ending December 31, 2022.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period* (“GASB 89”) will enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period. GASB 89 requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a

capital asset reported in a business-type activity or enterprise fund. GASB 89 will be effective for the Commission beginning with its year ending December 31, 2021.

GASB Statement No. 91, *Conduit Debt Obligations* (“GASB 91”) provides a single method of reporting conduit debt obligations by issuers and aims to eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. GASB 91 will be effective for the Commission beginning with its year ending December 31, 2022.

GASB Statement No. 92, *Omnibus 2020* (“GASB 92”) aims to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. GASB 92 will address a variety of topics and include specific provisions about individual Statements, including Statement No. 87, *Leases*, Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68*, and Amendments to Certain Provisions of GASB Statements 67 and 68, GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, and GASB Statement No. 84, *Fiduciary Activities*. GASB 92 will be effective for the Commission beginning with its year ending December 31, 2022, or when the statement referred to is implemented, whichever is earlier.

GASB Statement No. 93, *Replacement of Interbank Offered Rates* (“GASB 93”) establishes accounting and financial reporting requirements related to the replacement of Interbank Offered Rates in hedging derivative instruments and leases. It also identifies appropriate benchmark interest rates for hedging derivative instruments. GASB 93 will be effective for the Commission beginning with its year ending December 31, 2022.

GASB Statement No. 96, *Subscription-based Information Technology Arrangements* (“GASB 96”)—This statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). GASB 96 will improve financial reporting by establishing a definition for SBITAs and providing uniform guidance for accounting and financial reporting for transactions that meet that definition. GASB 96 will be effective for the Commission beginning with its year ending December 31, 2023.

2. CASH AND INVESTMENTS

As provided by the respective bond resolutions, cash and investments of the construction and revenue funds will be subject to a lien and charge in favor of the bondholders until paid out or transferred. Cash and investments from bond proceeds as of December 31, 2020 and 2019, were in the custody of the trustees.

Investments are authorized by the Public Funds Investment Act, the bond resolutions, and the Commission’s investment policy. The Commission’s investments are limited to various instruments by the indentures, restricted to one or more of the following:

- Bonds, notes, certificates of indebtedness, treasury bills, or other securities guaranteed by the full faith and credit of the United States of America as to principal and interest.
- Certain bonds, notes, debentures, or other similar obligations of the United States of America or its agencies.
- Short-term discount obligations issued by the Federal National Mortgage Association.

- Interest-bearing savings accounts, interest-bearing certificates of deposit, interest-bearing time deposits, or any other investments constituting direct obligations of any bank as defined by the Illinois Banking Act and which deposits are insured by the Federal Deposit Insurance Corporation (FDIC).
- Money market mutual funds registered under the Investment Company Act of 1940 (limited to obligations described above and to agreements to repurchase such obligations).
- Repurchase agreements to acquire securities through banks or trust companies authorized to do business in the state of Illinois.

The Commission's investment policy contains the following stated objectives:

Safety of Principal—Investments of the Commission shall be undertaken in a manner that ensures the preservation of capital in the total portfolio.

Liquidity—The total portfolio of the Commission shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated.

Rate of Return—The total portfolio of the Commission shall be designed with the objective of attaining the highest rate of return, consistent with the Commission's investment risk constraints identified herein and with prudent investment principles and cash flow needs.

Benchmark—An appropriate benchmark shall be established to determine if market yields and performance objectives are being achieved.

Public Trust—All participants in the investment process shall seek to act responsibly as custodians of the public trust and shall avoid any transactions that might impair public confidence in the Commission.

Local Consideration—The Commission seeks to promote economic development in the city of Chicago. In accordance with this goal, preference shall be given to any depository institution meeting the requirements defined in this policy, within the city limits whose investment rates are within 0.125% of the rate that could be obtained at an institution outside the city limits. In addition, the Commission shall strongly consider depository institutions that are certified Minority Business Enterprise and Women Business Enterprise institutions.

As of December 31, 2020, and 2019, the carrying amounts of the Commission's cash deposits were \$335,395 and \$260,443, respectively. The Commission's cash bank balances as of December 31, 2020 and 2019, totaled \$450,884 and \$450,000, respectively.

All money market mutual funds that have scheduled maturities within one year of the statement of net position date are recorded at amortized cost, plus accrued interest, which approximates fair value. All other investments are carried at fair value (see Note 1). The Commission generally holds securities until maturity. An attempt is made within the construction funds to align scheduled maturities with the anticipated construction schedule of the underlying projects. However, at times, certain securities are

sold by the Commission prior to their scheduled maturities in order to meet construction-financing requirements.

	Carrying Amount as of December 31, 2020	Maturities Less than One Year
U.S. Treasury obligations	\$ 7,908	\$ 7,908
Money market mutual funds	<u>33,014,936</u>	<u>33,014,936</u>
Total	<u>\$ 33,022,844</u>	<u>\$ 33,022,844</u>
	Carrying Amount as of December 31, 2019	Maturities Less than One Year
U.S. Treasury obligations	\$ 24,868	\$ 24,868
Money market mutual funds	<u>55,923,677</u>	<u>55,923,677</u>
Total	<u>\$ 55,948,545</u>	<u>\$ 55,948,545</u>

Fair Value—Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement. The Commission categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are other observable inputs; Level 3 inputs are unobservable inputs. As of December 31, 2020, and 2019, the Commission held \$7,908 and \$24,868, respectively, of US Treasury obligations of which are recorded at fair value using Level 2 inputs. The \$33,014,936 and \$55,923,677 of money market mutual funds as of December 31, 2020 and 2019, respectively, are recorded at amortized cost and are not subject to the fair value hierarchy.

Credit Risk—Credit risk is the risk that the Commission will not recover its investments due to the inability of the counterparty to fulfill its obligation. The Commission’s investment and cash management policy, dated December 8, 1998 (the “Policy”), applies the “prudent person” standard in the context of managing an overall investment portfolio. This standard states that investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital, as well as the probable income to be derived.

The Policy further states, regarding diversification, the Commission shall diversify its investments by security type and institution. In order to minimize risk, the Commission shall adhere to the following limits:

1. The Commission shall at no time hold certificates of deposit from any single financial institution, which constitutes more than 10% of the Commission’s total portfolio.
2. The Commission shall at no time hold certificates of deposit constituting more than 1% of any single financial institution’s total deposits.
3. Commercial paper shall not exceed 30% of the Commission’s total portfolio.

4. The Commission shall at no time hold more than 5% of the total portfolio in any single issuer's name.

Throughout 2020 and 2019, Standard & Poor's and Moody's rated the Commission's investments in money market mutual funds AAA.

3. CAPITAL ASSETS (DALEY CENTER)

A summary of changes in capital assets is as follows:

	Balance as of December 31, 2019	Transfers in, and Depreciation	Adjustments, and Transfers Out	Balance as of December 31, 2020
Capital assets—not being depreciated:				
Land	\$ 11,667,688	\$	\$	\$ 11,667,688
Construction in progress	<u>392,022</u>	<u>2,969,649</u>	<u>(1,065,286)</u>	<u>2,296,385</u>

Leases dated July 1, 1963, between the Commission and the city of Chicago and the County of Cook, respectively, governed the use of the building now known as the Daley Center and established a schedule of lease payments for costs related to the operation and maintenance of the building and for payment of debt service on bonds associated with the construction of the building. The original leases ran through December 31, 1983, but have continued to be in effect on a year-to-year basis by operation of law.

4. REVENUE BONDS

The summary of long-term debt outstanding as of December 31, 2020, is as follows (in thousands):

	Balance as of December 31, 2019	Additions	Reductions	Balance as of December 31, 2020
\$91,340,000 Series 2006—Chicago Transit Authority—building refunding revenue bonds, 4.00% to 5.25% (2003)	\$61,395	\$	\$(3,065)	\$58,330
Total revenue bonds outstanding—December 31, 2020	61,395	\$	\$(3,065)	58,330
Premium	4,379			4,063
Less current portion	<u>(3,381)</u>			<u>(3,541)</u>
Noncurrent portion	<u>\$62,393</u>			<u>\$58,852</u>

The summary of long-term debt outstanding as of December 31, 2019, is as follows (in thousands):

	Balance as of December 31, 2018	Additions	Reductions	Balance as of December 31, 2019
\$91,340,000 Series 2006—Chicago Transit Authority—building refunding revenue bonds, 4.00% to 5.25% (2003)	\$ 64,310	\$ -	\$(2,915)	\$ 61,395
Total revenue bonds outstanding—December 31, 2019	64,310	\$ -	\$(2,915)	61,395
Premium	4,695			4,379
Less current portion	<u>(3,231)</u>			<u>(3,381)</u>
Noncurrent portion	<u>\$ 65,774</u>			<u>\$ 62,393</u>

Gross interest expense related to bonds for the years ended December 31, 2020 and 2019, was \$2,851,326 and \$3,223,305, respectively, for debt service payments. Amortization of bond premiums of \$309,519 was also included as a reduction of interest expense for the years ended December 31, 2020 and 2019, respectively. This resulted in a net interest expense related to bonds of \$2,541,807 and \$2,913,789 for the years ended December 31, 2020 and 2019, respectively.

Security for Bonds—As provided by the bond resolutions, the bonds are secured by liens on the revenues derived from leases for the facilities but not by mortgages on the facilities. Under the lease agreements, the lessees are obligated to levy taxes to pay rentals, which together with any other rentals, fees, and charges for use of space in the facilities, will produce revenues at all times sufficient to pay the principal of and the interest on the bonds and maintain the accounts created by the bond resolutions. Title to the properties under such lease agreements will be conveyed to the lessee upon certification by the secretary and treasurer of the Commission that all principal, interest, premium, administrative, and other expenses with respect to such revenue bond issue have been paid in full.

Series of	Leases	Annual Rentals Due	
		From	To
1990A	Board of Education of the City of Chicago 1	1990	2019
1990B	Board of Education of the City of Chicago 1	1990	2014
1993A	Board of Education of the City of Chicago 2	1993	2018
1999B	Board of Education of the City of Chicago 2	1999	2018
2001	Board of Education of the City of Chicago 3	2001	2015
2001A	Board of Education of the City of Chicago 3	2002	2018
2003	Chicago Transit Authority 4	2004	2023
2006	Chicago Transit Authority 4	2007	2033

- 1 Principal and interest portion of lease have been defeased.
- 2 A portion of principal and interest has been defeased from the 1999B proceeds.
- 3 Lease payments have been fully defeased.
- 4 Principal and interest have been defeased from the 2003 proceeds.

Annual Requirements—The total of principal and interest due on bonds during the next five years and in subsequent five-year periods as of December 31, 2020, is as follows:

Years Ending December 31	Principal	Interest	Total
2021	\$ 3,225,000	\$ 2,965,163	\$ 6,190,163
2022	3,390,000	2,799,788	6,189,788
2023	3,565,000	2,621,456	6,186,456
2024	3,760,000	2,429,175	6,189,175
2025	3,960,000	2,226,525	6,186,525
2026-2030	23,250,000	7,689,413	30,939,413
2031-2034	<u>17,180,000</u>	<u>1,384,425</u>	<u>18,564,425</u>
Total	<u>\$ 58,330,000</u>	<u>\$ 22,115,945</u>	<u>\$ 80,445,945</u>

Defeased Debt—The Commission has refunded all or a portion of various bonds by depositing U.S. government securities in irrevocable trusts to provide for all future debt service payments on old bonds. As a result, such bonds are considered to be defeased and the liability for these bonds has been removed from the statements of net position. The outstanding balances for refunded bonds as of December 31, 2020 and 2019, are as follows:

	Amount Outstanding	
	2020	2019
1990A	\$ _____	\$ 27,540,000
Total	\$ _____	\$ 27,540,000

Arbitrage—In accordance with the Internal Revenue Code of 1986, as amended, the Commission is required to rebate excess investment earnings (as defined) to the federal government. As of December 31, 2020 and 2019, the Commission had estimated it had no liability pursuant to the arbitrage rebate regulations.

5. CAPITAL LEASES RECEIVABLE

The summary of capital leases receivable as of December 31, 2020, is as follows (in thousands):

	Balance as of December 31, 2019	Additions	Reductions	Balance as of December 31, 2020
\$91,340,000 Series 2006—Chicago Transit Authority—Building Transit Authority—building refunding revenue bonds (2003)	\$ 61,395	\$ _____	\$ (3,065)	\$ 58,330
Total capital leases receivable—December 31, 2020	61,395	\$ _____	\$ (3,065)	58,330
Less current portion	<u>(3,065)</u>			<u>(3,225)</u>
Noncurrent portion	<u>\$ 58,330</u>			<u>\$ 55,105</u>

The summary of capital leases receivable as of December 31, 2019, is as follows (in thousands):

	Balance as of December 31, 2018	Additions	Reductions	Balance as of December 31, 2019
\$91,340,000 Series 2006—Chicago Transit Authority—Building Transit Authority—building refunding revenue bonds (2003)	\$ 64,310	\$ -	\$ (2,915)	\$ 61,395
Total capital leases receivable—December 31, 2019	64,310	\$ -	\$ (2,915)	61,395
Less current portion	<u>(2,915)</u>			<u>(3,065)</u>
Noncurrent portion	<u>\$ 61,395</u>			<u>\$ 58,330</u>

Future Minimum Lease Payment Receivable—The future minimum lease payment receivables as of December 31, 2020, are as follows:

Years Ending December 31	Principal	Interest and Other	Total Rent Payment
2021	\$ 3,225,000	\$ 2,965,163	\$ 6,190,163
2022	3,390,000	2,799,788	6,189,788
2023	3,565,000	2,621,456	6,186,456
2024	3,760,000	2,429,175	6,189,175
2025	3,960,000	2,226,525	6,186,525
2026-2030	23,250,000	7,689,413	30,939,413
2031-2034	<u>17,180,000</u>	<u>1,384,425</u>	<u>18,564,425</u>
Total	<u>\$ 58,330,000</u>	<u>\$ 22,115,945</u>	<u>\$ 80,445,945</u>

6. CAPITAL LEASE OBLIGATION

The summary of the Commission's capital lease obligations as of December 31, 2020 and 2019 are as follows (in thousands):

	Balance as of December 31, 2019	Additions	Reductions	Balance as of December 31, 2020
2010 tax-exempt lease	\$ 3,353	\$ _____	\$ (458)	\$ 2,895
Total capital lease obligation—December 31, 2020	3,353	\$ _____	\$ (458)	2,895
Less current portion	(458)			(495)
Noncurrent portion	<u>\$ 2,895</u>			<u>\$ 2,400</u>
	Balance as of December 31, 2018	Additions	Reductions	Balance as of December 31, 2019
2010 tax-exempt lease	\$ 3,776	\$ -	\$ (423)	\$ 3,353
Total capital lease obligation—December 31, 2019	3,776	\$ -	\$ (423)	3,353
Less current portion	(423)			(458)
Noncurrent portion	<u>\$ 3,353</u>			<u>\$ 2,895</u>

The capital lease obligation has an inherent interest rate of 3.87%.

Future Minimum Lease Payment Obligation—The future minimum lease payment obligations as of December 31, 2020, are as follows:

Years Ending December 31	Principal	Interest	Total Lease Payment
2021	\$ 495,455	\$ 107,305	\$ 602,760
2022	535,016	87,752	622,768
2023	576,777	66,647	643,424
2024	620,845	43,903	664,748
2025	667,331	19,431	686,762
2026–2029	_____	_____	_____
Total	<u>\$ 2,895,424</u>	<u>\$ 325,038</u>	<u>\$ 3,220,462</u>

7. RETIREMENT PLAN

On June 21, 1995, the Board of Commissioners of the Commission (the "Board") approved the adoption of the Public Building Commission of Chicago Retirement Plan (the "Plan") for Commission employees

meeting certain minimum age and service requirements. Amendments to the Plan were approved by the Board on November 9, 2004, and made effective January 1, 2005. The Plan, as amended, is a 401(a) money purchase defined contribution plan, which requires the Commission to make quarterly contributions to the Plan to equal an annualized amount of 8.75% of participants' salaries. Participants in the Plan vest at a rate of 20% per year after three years, with 100% vesting after seven years from the date of hire. Participants must make nonelective contributions, deducted from their compensation, of up to 7% of their annual salaries. There are no assets accumulated in a trust for the Plan. The Plan is administered by the Variable Annuity Life Insurance Company of Houston, Texas. The amount of covered payroll for those Commission employees participating in the Plan was \$3,560,949 and \$3,802,212 for the years ended December 31, 2020 and 2019, respectively. The contribution requirement of the Commission for the quarter ended December 31, 2020 and 2019, was \$100,882 and \$86,001, respectively. The required contribution for 2020 will be paid in 2021.

8. COMMITMENTS AND CONTINGENCIES

As of December 31, 2020 and 2019, the Commission had commitments for construction contracts and related architects and consultants' fees of approximately \$98,800,341 and \$217,068,436, respectively.

COVID-19 Impact – On March 11, 2020, the World Health Organization declared the novel strain of coronavirus ("COVID-19") a global pandemic and recommended containment and mitigations measures worldwide. In response to the pandemic, Illinois and Chicago imposed a wide range of restrictions on the physical movement of employees, vendors, and customers to limit the spread of COVID-19. To comply with government regulations and guidance, the Commission experienced delays in construction and shifted to off-premise operations where possible. As of the issuance of these financial statements, several restrictions have been rescinded in whole or in part due to changes in regulations and availability of vaccines. The Commission continues to follow guidance from local authorities in determining the appropriate restrictions to put in place.

The Commission is continuing to assess the financial impact of the ongoing pandemic. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. Due to the rapid development and fluidity of this situation, the Commission cannot determine the ultimate impact that the COVID-19 pandemic will have on its financial statements and therefore any prediction as to the ultimate impact on the Commission's financial statements is uncertain.

9. LITIGATION

There are several pending lawsuits related to construction projects in which the Commission is a defendant. The Commission has accrued for all losses it deems probable. Pursuant to the advice of legal counsel, management believes that the ultimate outcome of the remaining claims is not expected to have a material impact on the basic financial statements of the Commission.

10. SUBSEQUENT EVENTS

The Commission has evaluated subsequent events through June 30, 2021, the date the basic financial statements were available to be issued and determined that there are no events that require adjustment to, or disclosure in, these financial statements.

PUBLIC BUILDING COMMISSION OF CHICAGO

Comprehensive Annual Financial Report

Statistical Section (Unaudited)

This section of the comprehensive annual financial report presents detailed information to assist in better understanding information presented in the transmittal letter and the basic financial statements, and in better understanding the Commission's economic condition. All of the information in the Statistical Section is unaudited.

Contents:

Financial Trends

This information will help readers understand how the Commission's financial position has changed over time.

Revenue Capacity

This information will help readers understand the Commission's revenue and income sources. For the Commission's primary revenue source, project revenue, capacity is an extension of the capacity of each of its respective clients. Therefore, no information is provided regarding the Commission's actual revenue capacity.

Debt Capacity and Capital Lease Requirements

This information will help readers understand the Commission's debt burden. To better assess the Commission's ability to issue additional debt, the reader would have to assess the additional debt capacity of individual clients. The capital lease requirements relate to the Tax Exempt Lease Purchase Agreement which financed energy efficiency improvements at the Richard J. Daley Center.

Demographic and Economic Information

This information will help readers understand the Commission's socioeconomic environment.

Operating Information

This information will help readers better understand the Commission's operations and provide a context for understanding its business model and development approach.

Sources

The Commission implemented GASB 34 in 2002; schedules presenting government-wide information include information for the last ten fiscal years.

Comprehensive Annual Financial Report

Statistical Section (Unaudited)

Debt Capacity and Capital Lease Requirements

The tables on pages 35-36 depict the Commission's debt service requirements to maturity for currently outstanding series of bonds issued by the Commission and the remaining requirements for the capital lease which financed energy efficiency improvements at the Richard J. Daley Center.

The tables on pages 37-42 depict the Commission's outstanding debt service per capita and debt service as a percentage of personal income in relation to the City of Chicago on an annual basis for the last ten fiscal years for the capital lease and for each series of bonds that are still outstanding as of December 31, 2020.

The tables on pages 43-48 depict the Commission's outstanding debt service per capita and debt service as a percentage of personal income in relation to Cook County on an annual basis for the last ten fiscal years for the capital lease and for each series of bonds that are still outstanding as of December 31, 2020.
