SECTION III SCOPE OF SERVICES

A. INTRODUCTION

Created as an independent governmental unit, the Public Building Commission of Chicago (the "PBC" or "Commission") has enhanced education, safety, and recreation across the region by building or renovating hundreds of schools, city colleges, libraries, parks, fire houses, police stations and other public facilities that reflect the highest standards of environmental and economic sustainability. PBC User Agencies include, but are not limited to, the City of Chicago, Chicago Public Schools, Chicago Public Library, Chicago Park District, Cook County, City Colleges of Chicago, Cook County Forest Preserve District, Metropolitan Water Reclamation District and other municipalities. Beginning with land acquisition, the PBC's professional staff may manage each project through planning, financing, site preparation and remediation, design, construction and furnishing, functioning as a single point of responsibility for "turn-key" development.

The Commission may solicit bids for various construction-related projects undertaken by the Commission on behalf of various User Agencies. Projects may consist of the construction and/or renovation of buildings and facilities to be used by various agencies in the furnishing of governmental, health, safety and welfare services. The range of projects that may be solicited include anywhere from major capital improvements to the remodel of a single existing bathroom, the addition of a fence on a property or general site work.

The Commission, through this Request for Proposals, solicits the proposal of qualified firms (including firms proposing to have a controlling interest in Joint Ventures) interested in providing Construction Cost Estimating Services ("The Services") to the PBC.

The PBC accepts and encourages Joint Venture Partnerships and strongly encourages participation with MBE or WBE firms. Respondents interested in Joint Venture Partnerships must have the appropriate qualifications and combined financial and technical capacity required by this solicitation.

A completed Disclosure Affidavit (Exhibit B) must be submitted by firms interested in submitting as joint venture entity. Respondents must submit a copy of the entity's Joint Venture Agreement which clearly identifies the resources, capabilities, and capacity of each joint venture firm available to be allocated to the performance of the Agreement.

B. INTENT

The intent of this Request for Proposals is to identify and pre-qualify cost estimating firms to provide cost estimating services for various projects that may be undertaken by the Commission. The Commission will generate a pool of firms to perform the Services. Qualified firms interested in submitting proposals to provide such services are required to follow the guidelines and instructions contained in this RFP. The PBC, at its sole discretion, may choose to retain none, one or more firms to perform the Services.

The Construction Cost Estimator shall, at all times, work collaboratively with the Commission, corresponding Design Team, Sub-Consultants and General Contractor, if necessary, as well as all regulatory agencies throughout the life of the project.

The general administration and coordination activities to be performed by the Construction Cost Estimator include but are not limited to the below:

- Provide adequate staff to coordinate and support the project at each milestone estimate.
- Attend kickoff and periodic milestone meetings as required.
- Perform field visits and activities, as required, to become thoroughly familiar with the site and conditions surrounding the site, as well as document the conditions observed on the site.
- Work with the Commission to evaluate the risk associated with the design and to ensure that variables such as site logistics, constructability, local participation, shift work etc. are adequately accounted for in costs.
- Advise on the advantages and disadvantages of the various project delivery methods and recommend the appropriate delivery method for specific projects.
- Identify long lead items and recommend methods of procurement to achieve the project schedule.
- Participate in value engineering exercises and evaluate proposed building design systems as to quality, first cost and life cycle cost, constructability, and labor material availability.

2. Cost Estimates

Construction cost estimates shall include all aspects of demolition, remodeling, new construction, and site improvement work among others. Projects may include new construction projects, renovation projects, or conceptual planning projects and may include infrastructure or civil projects as well as any other estimates as required.

Estimates shall be prepared in a manner as to conform to all applicable codes and ordinances.

The number and type of estimates will vary from project to project based on the complexity of work contemplated to be undertaken. The actual number and type of estimates shall be determined by the Commission prior to the start of each project sequence.

The Construction Cost Estimator shall work with the Commissions' Design Team/Consultants, as may be required. The Construction Cost Estimator shall inform the Commissions' Design Team/Consultants of estimating protocols and required documentation formats prior to the start of each design phase.

The Construction Cost Estimator shall prepare and present construction cost estimates in a format that will clearly define the scope of the work being evaluated and be presented to the Commission with detailed breakdowns indicating all quantities and unit costs. Estimates will become the benchmark against which the evolving designs will be reconciled. Subsequent estimates shall be presented so that variances from the preceding estimates are clearly identifiable.

Estimates shall reflect factors influencing the potential cost of the project including but not limited to, market conditions, escalation, trade availability, Contractor's overhead, profit, and insurance, local and jurisdictional code issues, the Commission's building and system standards and the Commission's procurement requirements.

Estimates may also include soft costs, hard costs, ancillary costs, furniture, fixtures and equipment and contingencies. Estimates may also take into consideration relevant asbestos, geotechnical, geological, hydrogeological, environmental, site and development issues that may impact construction costs.

When estimated costs vary from the preceding project estimates, the Commission may determine that it is necessary for the Construction Cost Estimator, in collaboration with the Design Team/Consultants, to undertake a value management evaluation (options, advantages, disadvantages and recommendations) in order to identify specific methods to bring the costs back in line within the accuracy range of the project budget.

When project scopes are determined to present special risk factors, the Construction Cost Estimator may be directed to present multiple estimates reflecting different levels of risk.

The Construction Cost Estimator shall prepare construction estimates for various projects reflecting the specific development phase of the project (including but not limited to: Schematic Design, Design Development, 60% Construction Documents, 90% Construction Documents and Issue for Bid) to verify that the design and scope of the project are within the budget parameters. Estimates shall be based on project scopes and schedules and shall include reasonable contingencies. Estimates shall be realistic for the work to be performed, reflect a clear understanding of the project requirements, and shall be consistent with the unique project requirements.

Depending on project complexities, the Construction Cost Estimator may be required to prepare construction cost analysis at the end of 100% Preliminary Design Phase, 100% Schematic Design Phase, 100% Design Development Phase, 50% Construction Documents Phase, 90% Construction Documents Phase, Issue for Bid Documents, and 100% Construction Documents Phase.

Estimates shall be presented to the Commission with detailed breakdowns indicating all quantities and unit costs and as follows:

a. Preliminary Project Estimates

Preliminary project estimates shall be developed by the Construction Cost Estimator with oversight by the Commission. The estimates shall be developed from discussion with the Commissions' Design Team/Consultants and other key stakeholders as may be needed and shall be based on project information provided by the Commissions' Design Team/Consultants such as conceptual site plans, conceptual floor plans, preliminary building size calculations, mechanical, electrical and plumbing (MEP) narratives, and additional reports or site assessment information as available.

The Construction Cost Estimator shall submit the draft preliminary project budgets to the Commission. Based on comments received, revise the draft preliminary Construction budget as required and submit the final baseline Construction budget to the Commission for approval.

The Construction Cost Estimator will provide the Services at each of the project design milestones identified below. The cost estimating support should include but not be limited to: verification of take-off quantities, prepare project estimates, material cost forecasting, construction phasing review, provide input on risks associated with the construction and proposal of any constructability or value engineering or scheduling comments that are evident during the course of the estimating work. The Construction Cost Estimator (in coordination with the Commission) may provide intermediate estimating support to Commissions' Design Team/Consultants for design alternatives and/or construction packages at varying stages or phases of the project.

b. Schematic Design Estimates

Schematic design estimates shall be developed by the Construction Cost Estimator, with oversight by the Commission. The estimates shall be developed from discussion with the Commissions' Design Team/Consultants and other key stakeholders as may be needed and shall be based on project information provided by the Commissions' Design Team/Consultants such as site plans, floor plans, structural system plans, mechanical electrical and plumbing plans and narratives, phasing narratives and schedules. (Note multiple schematic designs may be provided for comparative purposes to assist The Commission in the selection of a preferred option.)

Schematic design estimates shall be compared by the Construction Cost Estimator against the preliminary Construction budget to identify variances. Variances shall be highlighted so that specific action can be undertaken to reduce costs as may be required.

c. Design Development Estimates

Design development estimates will be developed by the Construction Cost Estimator with oversight by the Commission. The estimates shall be developed from discussion with the Commissions' Design Team/Consultants and other key stakeholders as may be needed and shall be based on project information provided by the Commissions' Design Team/Consultants such as site plan, floor plans, building sections, building elevations, structural system plans, mechanical electrical and plumbing plans and narratives, phasing narratives and schedules.

At the completion of design development phase, the design development estimate for each project will be compared by the Construction Cost Estimator against the latest prior approved estimates to identify any variances. Variances shall be highlighted so that specific action can be undertaken to reduce costs as may be required.

d. Pre-Bid Estimates

Pre-bid estimates will be developed by the Construction Cost Estimator with oversight by the Commission. These estimates shall be prepared prior to issuance of bid and shall occur at approximately 90% completion of the Construction Documents. The estimates shall be developed from discussion with the Commissions' Design Team/Consultants and other key stakeholders as may be needed and shall be based on project information provided by the Commissions' Design Team/Consultants such as detailed drawings, phasing plan, detailed specifications and project schedule. The Construction Cost Estimator shall suggest methods to contain cost over runs on the project including but not limited to the use of "alternates bid items" in the bidding documents.

Depending on the complexity of the project and when directed to by the Commission, these estimates shall also occur at 50% completion of the Construction Documents as listed above or as otherwise directed.

Pre-bid estimates for each project will be compared by the Construction Cost Estimator against the latest prior approved estimates to identify any variances. Variances shall be highlighted so that specific action can be undertaken to reduce costs as may be required.

e. Bid Addenda

When Addenda are issued prior to bid opening, the Construction Cost Estimator may be asked to complete an update to the Pre-Bid Estimate, which incorporates the Addendum. If the Addenda contain a monetary and/or schedule impact, the Construction Cost Estimator may be asked to collaborate with the Commissions' Design Team/Consultants to realign the cost estimate and bring it back to the approved Pre-Bid Estimate.

f. Bid Evaluations

The Construction Cost Estimator shall analyze and report on all bids with recommendations after consultation with the Commission, the Commissions' Design Team/Consultants and bidders. The analysis shall identify any potential problem areas that may affect completion of the project in accordance with the budget and time schedule, along with recommended action. The Construction Cost Engineer shall assist the Commissions' Design Team/Consultants in undertaking post-bid value management, as may be required, including the incorporation of suggested alternatives and savings contained within the submitted general contractor bids. The Construction Cost Estimator shall make recommendations on any other matters that may have become evident during discussions with the parties or that may have become evident during the course of the Construction Cost Estimator review and inquiries.

Upon acceptance of a bid, the Construction Cost Estimator shall prepare a complete project budget, including construction costs, ancillary costs, furniture, fixtures and equipment and contingencies.

g. Construction Change Orders

When requested by the Commission, the Construction Cost Estimator shall provide full review of all change orders in consultation with the Commission and the Commissions' Design Team/Consultants. Reviews may include cost as well as schedule impacts.

h. Meetings

The Construction Cost Estimator shall attend and document various Owner/Designer/Bidder/Contractor meetings, as required, which may include but are not limited to: initial kick-off, pre-bid meetings, bid openings, and periodic milestone meetings.

The Construction Cost Estimator shall attend value engineering meetings, if deemed necessary, to assist in bringing costs in line with the budget.

The Construction Cost Estimator shall present information as requested and shall be responsible for any/all record keeping, minutes, specifications, notes, and other information as required by the Commission.

D. ESTIMATE REPORTING FORMAT REQUIREMENTS

The Construction Cost Estimator shall prepare and present construction cost estimates in a format that will clearly define the scope of the work being evaluated. The Construction Cost Estimator may be required to conform the estimates to AACEI (Association for the Advancement of Cost Engineers International).

The Construction Cost Estimator shall prepare cost control strategies to ensure that construction costs and related schedules can be monitored at regular design submission milestones and throughout the construction project.

Reports and the report contents shall be presented in a format satisfactory to the Commission. All cost estimate documents shall be prepared in electronic format and must be compatible with Adobe Acrobat Reader. The Construction Cost Estimator shall assist the Commission in the determination of these formats.

Estimates and associated cost analysis reports and all subsequent updates shall be submitted to the Commission within ten (10) working days after the Design Team's submission of documents for each phase of work (or within such time as directed by the Commission).

The Construction Cost Estimator will prepare reports as follows:

1. Reports

a. Basis of Estimate Report

Each estimate is expected to be accompanied by a Basis of Estimate (BOE) report. The BOE report is expected to include the following minimum components:

- Narrative, including assumptions and clarifications
- Breakdown by facility, discipline, bid group or subcontract package
- Material quantity take-offs
- Unit prices
- Labor and equipment rates
- Labor and equipment production rates
- Subcontractor costs
- Scope assumptions and clarifications
- Identification of long lead procurement items (equipment, materials and supplies)
- Mark Ups consistent with project delivery
- Provide any market pricing received from material suppliers and/or subcontractors

b. Estimate Variance Report

In addition to the Construction Cost Estimator's estimates, an estimate will be provided by the Commissions' Design Team/Consultants at milestones as directed by the Commission. The Construction Cost Estimator will be responsible for reviewing and comparing the estimates and preparing a variance report at the specific milestones for the Commission to document, at a minimum, any significant differences between the estimates.

As part of this report, the Construction Cost Estimator shall produce a narrative and chart showing the major cost changes and explaining the reasons for the change between the other estimates submitted at this phase. The amount of detail shown in this section of the variance report will be commensurate with the size, complexity, and severity or magnitude of the scope change. If the estimate requires a second resubmittal, the report may require updating.

ASTM E1804, "Standard Practice for Performing and Reporting Cost Analysis during the Design Phase of a Project," outlines the correct way to display cost estimates. The following is an example of this specific format:

Division of Work	ICE Estimate	Estimate X	Variance Dollars	Variance Percentage
Sitework	\$250,000	\$275,000	+\$25,000	+9.1%
Concrete	\$525,000	\$475,000	-\$50,000	-10.5%

c. Additional Reports

The Construction Cost Estimator shall prepare, distribute and retain records of all project cost control meetings and interviews with the Commission, the Commissions' Design Team/Consultants, Contractor(s), other specialty consultants and other agencies/companies, as applicable.

All reports shall be prepared in electronic format and must be compatible with Adobe Acrobat Reader or any other method mutually agreed to by both parties.

The number and type of reports will vary from project to project based on the complexity of work contemplated to be undertaken. The actual number and type of reports shall be determined by the Commission prior to the start of each project sequence (or within such time as directed by the Commission).

2. Restrictions

Where the Commission has engaged the Consultant to perform any Cost Estimating Services on a Commission project, the Consultant is prohibited from working with/for any other party (exclusive of the User Agency) relating to that particular project, in any capacity. However, the Consultant may submit (in writing) a waiver request of the aforementioned prohibition, and the Commission may, in its sole discretion, grant such a waiver, where the Commission's client's interests are best served.

E. ADDITIONAL CONTRACT REQUIREMENTS

The Commission will not be obligated to any minimum or maximum quantities.

All work completed will be subject to inspection and approval by the Commission. Acceptable quality is solely determined by the Commission and Commission Authorized Representative. The Commission reserves the right to reject and refuse acceptance of work, which is not in accordance with the instructions, specifications, drawings, data or quality standards of same. Rejected work shall be at the expense of the Respondent(s).

Any work provided by the Commission and/or the Authorized Commission Representatives for use in the performance of the Services involves property rights of the Commission and shall be held as confidential by the Respondent(s).

EXHIBIT D

Special Conditions Regarding the Utilization Of Minority and Women Owned Business Enterprises for Professional Services

(ATTACHED HERETO AND INCORPORATED HEREIN)

EXHIBIT D

Special Conditions Regarding the Utilization Of Minority and Women Owned Business Enterprises for Professional Services

1. Policy Statement

- a. It is the policy of the Commission to ensure competitive business opportunities for MBE and WBE firms in the performance of Contracts, to prohibit discrimination in the award of or participation in Contracts, and to abolish arbitrary barriers to full participation in Contracts by all persons, regardless of race, sex or ethnicity. Therefore, during the performance of this Contract, the Consultant must agree that it will not discriminate against any person or business on the basis of race, color, religion, ancestry, age, marital status, physical or mental handicap, unfavorable discharge from military service, parental status, sexual orientation, national origin or sex, in the solicitation or the purchase of goods and services or the subcontracting of work in the performance in this Contract.
- b. The Commission requires the Consultant also agree to take affirmative action to ensure that MBE and WBE firms have the maximum opportunity to compete for and perform subcontracts with respect to this Contract.
- c. The Commission requires the Consultant to notify MBE and WBE firms, utilized on this contract, about opportunities on contracts without affirmative action goals.

2. Aspirational Goals

- a. Upon the effective date of these Special Conditions, the bi-annual aspirational goals are to award 25% of the annual dollar value of Construction Contracts to MBEs and 5% of the annual dollar value of Construction Contracts to WBEs.
- b. Further, the Consultant must agree to use its best efforts to include MBE and WBE firms in any Contract modification work that increases the Contract value by 10% of the initial Contract value or \$50,000, whichever is less. Where the proposed contract modification involves work which can be performed by MBEs and WBEs already performing work on the contract such MBEs and WBEs will participate in such work specified in the contract modification.
- c. Failure to carry out the commitments and policies set forth in this Program constitute a material breach of contract and may result in termination of the Consultant or such other remedy, as the Commission deems appropriate.
- d. The goals for MBE and WBE participation goals for this project are as follows: 25% MBE and 5% WBE.

3. Definitions

- a. For purposes of this Special Condition, the following definitions applies:
 - i. "Certified Minority Business Enterprise" means a person or entity granted certification by the City of Chicago or County of Cook.
 - ii. "Certified Women's Business Enterprise" means a person or entity granted certification by the City of Chicago or County of Cook.
 - iii. "Professional Service Contract" means a contract for professional services of any type.
 - iv. "Contract Specific Goals" means the subcontracting goals for MBE and WBE participation established for a particular contract based upon the availability of MBEs and WBEs to perform and anticipated scope of work of the contract and the Commission's progress towards meeting the aspirational goals.
 - v. "Consultant" means any person or business entity that seeks to enter into a Professional Services Contract with the Commission and includes all partners, affiliates and Joint Ventures of such person or entity.
 - vi. "Design-Builder" means the entity responsible for the planning, design, and construction of a project.
 - vii. "Established Business" means a person or entity granted certification by the City of Chicago or Cook County.
 - viii. "Executive Director" means the Executive Director of the Commission or his duly designated representative as appointed in

writing.

- ix. "Good faith efforts" means actions undertaken by a Consultant to achieve a Contract Specific Goal that by their scope, intensity and appropriateness to the objective can reasonably be expected to fulfill the Program's requirements.
- x. "Joint Venture" means an association of two or more persons or entities or any combination of two or more business enterprises and persons numbering two or more, proposing to perform a single for-profit business enterprise, in which each Joint Venture partner contributes property, capital, efforts, skill and knowledge, and in which the MBE or WBE is responsible for a distinct, clearly-defined portion of the work of the contract and whose share in the capital contribution, control, management, risks and profits of the Joint Venture is equal to its ownership interest. Joint Ventures must have an agreement in writing specifying the terms and conditions of the relationships between the parties and their relationship and responsibilities to the contract.
- xi. "Program" means the minority and women business enterprise procurement program established in this special condition.

4. Determining MBE/WBE Utilization

The methodology for determining MBE and WBE utilization will be determined for purposes of analysis with respect to this contract as follows:

- a. The total dollar value of the contract awarded to the certified MBE or WBE firm will be credited to such participation. Only minority business participation may be counted toward MBE participation and only women business participation may be counted toward WBE participation.
- b. The total dollar value of a contract with a firm owned and controlled by minority women is counted toward either the MBE or WBE goal, but not both. The Consultant employing the firm may choose the goal to which the contract value is applied. Various work done by one and the same subconsultant will be considered, for the purpose of this principle, as work effectively done under one subcontract only, which subconsultant may be counted toward only one of the goals, not toward both.
 - c. A Consultant may count toward its MBE or WBE goal the portion of the total dollar value of a contract with an eligible Joint Venture equal to the percentage of the ownership and control of the MBE or WBE partner in the Joint Venture. A Joint Venture seeking to be credited for MBE participation may be formed among certified MBE and WBE firms, or between certified MBE and WBE firms and a non-MBE/WBE firm. A Joint Venture satisfies the eligibility standards of this Program if the certified MBE or WBE participant of the Joint Venture:
 - i. Shares in the ownership, control, management responsibilities, risks and profits of the Joint Venture; and
 - ii. Is responsible for a clearly defined portion of work to be performed in proportion to the MBE or WBE ownership percentage.
- d. A Consultant may count toward its MBE and WBE goals only expenditures to firms that perform a commercially useful function in the work of a contract. A firm is considered to perform a commercially-useful function when it is responsible for execution of a distinct element of the work of a contract and carries out its responsibilities by actually performing, managing, and supervising the work involved. To determine whether a firm is performing a commercially useful function, the Commission will evaluate the amount of work subcontracted, industry practices and other relevant factors.
- e. Consistent with normal industry practices, a MBE or WBE firm may enter into subcontracts. If a MBE or WBE Consultant subcontracts a significantly greater portion of the work of a contract than would be expected on the basis of normal industry practices, the MBE or WBE will be rebuttably presumed not to be performing a commercially-useful function.
- f. A Consultant may count toward its goals expenditures to MBE or WBE manufacturers (i.e., suppliers that produce goods from raw materials or substantially alters them before resale).
- g. A Consultant may count toward its goals expenditures to MBE or WBE suppliers provided that the supplier performs a commercially useful function in the supply process. Expenditures to suppliers will only be counted if the supplies are sold to the Consultant or subconsultant that installs those supplies in the Work.

5. Submission of Bid Proposals

- a. The following schedules and documents constitute the Bidder's MBE/WBE compliance proposal and must be submitted at the time of the bid or proposal or within such extended period as provided in Article 23.
 - i. Evidence of Certification: Affidavit of MBE/WBE. A copy of each proposed MBE and WBE firm's Letter of Certification from the City of Chicago, Department of Procurement Services or the County of Cook must be submitted.

- ii. Schedule B: Affidavit of MBE/Non-MBE or WBE/Non-WBE Joint Ventures. Where the Bidder's MBE/WBE compliance proposal includes participation of any MBE or WBE as a Joint Venture participant, the Bidder must submit a "Schedule B: Affidavit of MBE/Non-MBE or WBE/Non-WBE Joint Venture" with an attached copy of the Joint Venture agreement proposed among the parties. The Schedule B and the Joint Venture agreement must clearly evidence that the MBE or WBE participant will be responsible for a clearly defined portion of the work to be performed and that the MBE or WBE firm's responsibilities are in proportion with its ownership percentage.
 - iii. Schedule C: Letter of Intent to Perform as a Subconsultant, Subconsultant, or Material Supplier, Schedule C, executed by the MBE/WBE firm (or Joint Venture Subconsultant) must be submitted by the Bidder for each MBE/WBE included on the Schedule D. Schedule C must accurately detail the work to be performed by the MBE or WBE firm and the agreed rates and prices to be paid.
 - iv. Schedule D: Affidavit of Prime Consultant Regarding MBE or WBE Utilization. A completed Schedule D committing to the utilization of each listed MBE or WBE firm. Unless the Bidder has submitted a completed request for a waiver of participation by MBE/WBE firms (See Request for Waiver procedures in Section 23.01.10), the Bidder must include the specific dollar amount of participation of each MBE/WBE firm listed on its Schedule D. The total dollar commitment to proposed MBE firms must at least equal the MBE goal, and the total dollar commitment to proposed WBE firms must at least equal the WBE goal. Bidders are responsible for calculating the dollar equivalent of MBE or WBE utilization as percentages of their total base bid.
- b. The submittals must have all blank spaces on the Schedule pages applicable to the contract correctly filled in. Agreements between a Bidder and a MBE/WBE in which the MBE/WBE promises not to provide subcontracting quotations to other Bidders are prohibited.

6. Evaluation of Compliance Proposals

- a. During the period between bid opening and contract award, the Bidder's MBE/WBE compliance proposal will be evaluated by the Commission. The Bidder agrees to provide, upon request, earnest and prompt cooperation to the Executive Director or his designee in submitting to interviews that may be necessary, in allowing entry to places of business, in providing further documentation, or in soliciting the cooperation of a proposed MBE or WBE firm in providing such assistance. A bid may be treated as non-responsive by reason of the determination that the Bidder's proposal did not contain a sufficient level of Certified MBE or WBE participation, that the Bidder was unresponsive or uncooperative when asked for further information relative to the proposal, or that false statements were made in the Schedules.
- b. If the Commission's review of a Bidder's proposal concludes that the MBE or WBE proposal was deficient, the Commission will promptly notify the Bidder of the apparent deficiency and instruct the Bidder to submit (within 3 business days of such notice given by the Commission) a modification of the MBE or WBE Proposal, in proper format, which remedies the deficiencies cited. Failure to correct all deficiencies cited by the Commission will be cause for rejection of the Bidder's proposal as non-responsive.
- c. Bidders will not be permitted to modify their MBE/WBE compliance proposal except insofar as directed to do so by the Commission. Therefore, all terms and conditions stipulated for prospective MBE and WBE subconsultants or suppliers should be satisfactorily negotiated prior to the submission to the Commission of the Bidder's MBE/WBE compliance proposal with the bid. If circumstances should arise, however, where a proposed MBE/WBE is no longer available, the process described in Section 23.01 should be followed.
- d. If the Compliance Proposal includes participation by material suppliers, the PBC will request copies of the offers from such suppliers. The offers must be furnished to the PBC within three (3) business days of the bidder's receipt of the request for such offers from the PBC. The PBC may make such request by electronic mail. The offers must specify: (i) the particular materials, equipment and/or supplies that will be furnished; (ii) the supplier's price for each of the items; (iii) the total price of the items to be furnished by the supplier, (iv) the supplier's source for the items (e.g., manufacturer, wholesaler) and (v) the subconsultant that the supplies will be purchased by.

7. Request for Waiver

- a. If a Bidder is unable to identify qualified MBE and WBE firms to perform sufficient work to fulfill the MBE or WBE percentage goals for this Contract, the bid or proposal must include a written request for waiver. A request for waiver must be sent to the Executive Director and must set forth the Bidder's inability to obtain sufficient MBE and WBE firms notwithstanding good faith attempts to achieve such participation.
- b. Good Faith efforts to achieve participation include but are not limited to:
 - i. Attendance at the Pre-bid conference;

- ii. The Bidder's general affirmative action policies regarding the utilization of MBE and WBE firms, plus a description of the methods used to carry out those policies;
- iii. Advertisement in trade association newsletters and minority and woman-oriented and general circulation media for specific sub-bids;
- iv. Timely notification of specific sub-bids to minority and woman Consultant assistance agencies and associations;
- v. Description of direct negotiations with MBE and WBE firms for specific sub-bids, including:
 - a. The name, address and telephone number of MBE and WBE firms contacted;
 - b. A description of the information provided to MBE and WBE firms regarding the portions of the work to be performed; and
 - c. The reasons why additional MBE and WBE firms were not obtained in spite of negotiations.
- vi. A statement of the efforts made to select portions of the work proposed to be performed by MBE and WBE firms (such as sub-supplier, transport, engineering, distribution, or any other roles contributing to production and delivery as specified in the contract) in order to increase the likelihood of achieving sub participation.
- vii. As to each MBE and WBE contacted which the Bidder considers to be not qualified, a detailed statement of the reasons for the Bidder's conclusion.
- viii. Efforts made by the Bidder to expand its search for MBE and/or WBE firms beyond usual geographic boundaries.
- ix. General efforts made to assist MBE and WBE firms to overcome participation barriers.
- c. The Executive Director, after review and evaluation of the request provided by the Bidder, may grant a waiver request upon the determination that:
 - i. Sufficient qualified MBE and/or WBE firms capable of providing the goods or services required by the contract are unavailable despite the good faith efforts of the Bidder;
 - ii. The price(s) quoted by potential MBE and/or WBE firms for goods or services is above competitive levels to an extent unwarranted by any increased cost of doing business attributable to the present effects of disadvantage or discrimination.

8. Failure To Achieve Goals

- a. If the Consultant cannot achieve the contract specific goals, as the Project proceeds, it must have documented its good faith efforts to do so. In determining whether the Consultant has made such good faith efforts, the performance of other Consultants in meeting the goals may be considered. The Executive Director or his designee shall consider, at a minimum, the Consultant's efforts to do the following:
 - i. Soliciting through reasonable and available means the interest of MBEs or WBEs that Provide interested MBEs or WBEs with adequate information about the plans, specifications and requirements of the contract, including addenda, in a timely manner to assist them in responding to the solicitation.
 - ii. Provide interested MBEs or WBEs with adequate information about the plans, specifications and requirements of the contract, including addenda, in a timely manner to assist them in responding to the solicitation.
 - iii. Negotiating in good faith with interested MBEs or WBEs that have submitted bids. Documentation of negotiation must include the names, addresses and telephone numbers of MBEs or WBEs that were solicited; the date of each such solicitation; a description of the information provided regarding the plans and specifications for the work selected for subcontracting; and evidence as to why agreements could not be reached with MBEs or WBEs to perform the work. That there may be some additional costs involved in solicitation and using MBEs and WBEs is not a sufficient reason for a Consultant's failure to meet the goals, as long as such costs are reasonable.
 - iv. Not rejecting MBEs or WBEs as being unqualified without sound reasons based on the thorough investigation of a their capabilities. The MBEs' or WBEs' standing within its industry, membership in specific groups, organizations, or associations and political or social affiliations are not legitimate cases for rejecting or not soliciting bids to meet the goals.
 - v. Making a portion of the work available to MBE or WBE subconsultants and suppliers and to select those portions of the work or material consistent with the available MBE or WBE subconsultants and suppliers, so as to facilitate meeting the goals.
 - vi. Making good faith efforts despite the ability or desire of a Consultant to perform the work of a contract with its own organization. A Consultant that desires to self-perform the work of a contract must demonstrate good faith efforts unless the

goals have been met.

- vii. Selecting portions of the work to be performed by MBEs or WBEs in order to increase the likelihood that the goals will be met. This includes, where appropriate, breaking out contract work items into economically feasible units to facilitate MBE or WBE participation even when the Contract might otherwise prefer to perform these items with its own forces.
 - viii. Making efforts to assist interested MBEs or WBEs in obtaining bonding lines of credit or insurance as required by the Commission or Consultant.
 - ix. Making efforts to assist interested MBEs or WBEs in obtaining necessary equipment, supplies, materials or related assistance or services, including participation in a mentor-protégée program; and
 - x. Effectively using the services of the Commission; minority or women community organizations; minority or women Consultants' groups; local, state and federal minority or women business assistance offices; and other organizations to provide assistance in the recruitment and placement of MBEs or WBEs.
- b. In the event the Public Building Commission determines that the Consultant did not make a good faith effort to achieve the goals, the Consultant may file a dispute to the Executive Director as provided in Article XI of the Standard Terms and Conditions.
9. Established Business Participation in the MBE and WBE Procurement Program
- a. A local business entity which meets all the requirements to be certified as an MBE or WBE under this article except that it has become an established business may participate in the minority- and women-owned business enterprise program as follows:
 - (1) For a one-year period after the business entity has become an established business, only 75 percent of such business's participation in the Contract shall account for the MBE or WBE, as applicable, participation requirement set forth in Section 23.01.4;
 - (2) For a one-year period starting on the one-year anniversary of the date the business entity became an established business, only 50 percent of such business's participation in the Contract shall account for the MBE or WBE, as applicable, participation requirement set forth in Section 23.01.4.
 - (3) For a one-year period starting on the two-year anniversary of the date the business entity became an established business, only 25 percent of such business's participation in the Contract shall account for the MBE or WBE, as applicable, participation requirement set forth in Section 23.01.4.

An Establish Business entity shall not be eligible to participate in the minority- and women-owned business enterprise procurement program starting on the three-year anniversary of the date the business entity became an established business.

10. Reporting and Record-Keeping Requirements

- a. The Consultant, within 5 working days of contract award, must execute a formal subcontract or purchase order in compliance with the terms of the Consultant's bid proposal and MBE/WBE assurances, and submit to the Commission a copy of the MBE and WBE subcontracts or purchase orders, each showing acceptance of the subcontract or purchase order by the MBE and WBE firms. During the performance of the contract, the Consultant will submit waivers of lien from MBE and WBE subconsultants and suppliers indicating the current payment amount and the cumulative dollar amount of payments made to date. The Consultant will file regular MBE and WBE utilization reports on the form entitled "Status Report of MBE and WBE (Sub) Contract Payments" at the time of submitting each monthly Payment Estimate, which reflects the current status of cumulative and projected payments to MBE and WBE firms.
- b. The Consultant must maintain records of all relevant data with respect to the utilization of MBE and WBE firms, including without limitation payroll records, tax returns and records, and books of account in such detail as the Commission requires, and retain such records for a period of at least 3 years after final acceptance of the work. Full access to such records will be granted to the Commission and/or its designees, on 5 business days' notice in order for the Commission to determine the Consultant's compliance with its MBE and WBE commitments and the status of any MBE or WBE firm performing any portion of the contract.

11. Disqualification of MBE or WBE

The Contract may be terminated by the Executive Director upon the disqualification of the Consultant as an MBE or WBE if the Consultant's status as an MBE or WBE was a factor in the award and such status was misrepresented by the Consultant.

- a. The Contract may be terminated by the Executive Director upon the disqualification of any MBE or WBE if the Subconsultant's or supplier's status as an MBE or WBE was a factor in the award of the contract and the status of the subconsultant or supplier was misrepresented by the Consultant. If the Consultant is determined not to have been involved in any misrepresentation of the status of the disqualified subconsultant or supplier, the Consultant shall make good faith efforts to engage a qualified MBE or

WBE replacement.

12. Prohibition On Changes To MBE/WBE Commitments

The Consultant must not make changes to its contractual MBE and WBE commitments or substitute such MBE or WBE subconsultants without the prior written approval of the Executive Director. Unauthorized changes or substitutions, including performing the work designated for a subconsultant with the Consultant's own forces, is a violation of this section and a breach of the contract with the Commission, and may cause termination of the contract for breach, and/or subject the Consultant to contract remedies or other sanctions. The facts supporting the request must not have been known nor reasonably should have been known by the parties prior to entering into the subcontract.

13. MBE/WBE Substitution Requirements and Procedures

- a. Arbitrary changes by the Consultant of the commitments earlier certified in the Schedule D are prohibited. Further, after once entering into each approved MBE and WBE sub-contract agreement, the Consultant shall thereafter neither terminate the subcontract, nor reduce the scope of the work to be performed by the MBE or WBE, nor decrease the price to the MBE or WBE, without in each instance receiving the prior written approval of the Executive Director. In some cases, however, it may become necessary to substitute a new MBE or WBE in order to actually fulfill the MBE or WBE requirements. In such cases, the Executive Director must be given reasons justifying the release by the Consultant of prior specific MBE or WBE commitments established in the contract, and will need to review the eligibility of the MBE or WBE presented as a substitute. The substitution procedure will be as follows:

- i. The Consultant must notify the Executive Director immediately in writing of an apparent necessity to reduce or terminate a MBE or WBE subcontract and to propose a substitute firm for some phase of work, if needed in order to sustain the fulfillment of the MBE/WBE contract requirements.
- ii. The Consultant's notification should include the specific reasons for the proposed substitution. Stated reasons which would be acceptable include any of the following reasons: a) Unavailability after receipt of reasonable notice to proceed; b) failure of performance; c) financial incapacity; d) refusal by the subconsultant to honor the bid or proposal price or scope; e) mistake of fact or law about the elements of the scope of work of a solicitation where a reasonable price cannot be agreed; f) failure of the subconsultant to meet insurance, licensing or bonding requirements; g) the subconsultant's withdrawal of its bid or proposal; or h) decertification of the subconsultant as MBE or WBE.

The Consultant's position must be fully explained and supported with adequate documentation. Stated reasons which will not be acceptable include: replacement firm has been recruited to perform the same work under terms more advantageous to the Consultant; issues about performance by the committed MBE or WBE were disputed (unless every reasonable effort has already been taken to have the issues resolved or mediated satisfactorily); an MBE or WBE has requested reasonable price escalation which may be justified due to unforeseen circumstances.

- iii. The Consultant's notification should include the names, address and principal official of any proposed substitute MBE or WBE and the dollar value and scope of work of the proposed subcontract. Attached should be all the same MBE/WBE affidavits, documents and Letters of Intent which are required of the proposed MBE or WBE firms.
 - iv. The Executive Director will evaluate the submitted documentation, and respond within fifteen (15) working days to the request for approval of a substitution. The response may be in the form of requesting more information, or requesting an interview to clarify or mediate the problem. In the case of an expressed emergency need to receive the necessary decision for the sake of job progress, the Executive Director will instead respond as soon as practicable.
 - v. Actual substitution of a replacement MBE or WBE to fulfill contract requirements must not be made before the Executive Director's approval is given of the acceptability of the substitute MBE or WBE. This subcontract must be executed within five (5) working days, and a copy of the MBE WBE subcontract with signatures of both parties to the agreement should be submitted immediately to the Executive Director.
- b. The Executive Director will not approve extra payment for escalated costs incurred by the Consultant when a substitution of subconsultants becomes necessary for the Consultant in order to comply with MBE/WBE contract requirements.
 - c. No relief of the MBE/WBE requirements will be granted by the Executive Director except in exceptional circumstances. Requests for complete or partial waiver of the MBE/WBE requirements of this contract must be made in writing, stating all details of the request, the circumstances, and any additional relevant information. The request must be accompanied by a record of all efforts taken by the Consultant to locate specific firms, solicit MBE and WBE bids, seek assistance from technical assistance agencies, and other good faith efforts undertaken to achieve compliance with the MBE/WBE goals.

14. Non-Compliance

- a. The Executive Director has the authority to apply suitable sanctions to the Consultant if the Consultant is found to be in non-compliance with the MBE and WBE requirements. Failure to comply with the MBE or WBE terms of this contract or failure to use MBE or WBE firms as stated in the Consultant's assurances constitutes a material breach of the contract, and may lead to the suspension or termination of the contract in part or in whole. In some cases, monthly progress payments may be withheld until corrective action is taken.
- b. When the contract is completed, if the Executive Director has determined that the Consultant did not comply in the fulfillment of the required MBE and/or WBE goals, and a grant of relief of the requirements was not obtained, the Commission will be damaged in the failure to provide the benefit of participation to minority or women business to the degree set forth in this Special Condition. In that case, the Commission may disqualify the Consultant from entering into future contracts with the Commission.

15. Severability

- a. If any section, subsection, paragraph, clause, provision or application of these Special Conditions is held invalid by any court, the invalidity of such section, paragraph, clause or provision will not affect any of the remaining provisions hereof.

3. Automobile Liability

When any motor vehicles (owned, non-owned and hired) are used in connection with work to be performed, the Consultant must provide Automobile Liability Insurance, with limits of not less than \$1,000,000 per occurrence for bodily injury and property damage. B. ADDITIONAL REQUIREMENTS

The Consultant must submit evidence of insurance to the Commission before award of Agreement. The receipt of any certificate does not constitute agreement by the Commission that the insurance requirements in the Agreement have been fully met or that the insurance policies indicated on the certificate are in compliance with all Agreement requirements. The failure of the Commission to obtain certificates or other insurance evidence from Consultant is not a waiver by the Commission of any requirements for the Consultant to obtain and maintain the specified coverage. The Consultant will advise all insurers of the Agreement provisions regarding insurance. Non-conforming insurance does not relieve Consultant of the obligation to provide insurance as specified in this Agreement. Non-fulfillment of the insurance conditions may constitute a breach of the Agreement, and the Commission retains the right to stop work until proper evidence of insurance is provided, or the Agreement may be terminated.

The Commission reserves the right to obtain copies of insurance policies and records from the Consultant and/or its subcontractors at any time upon written request.

The insurance must provide for 30 days prior written notice to be given to the Commission if any policies are canceled, substantially changed, or non-renewed.

The Consultant hereby waives and agrees to require their insurers to waive their rights of subrogation against the Commission, the City of Chicago and any other User Agency or Owner or their respective Board members, employees, elected and appointed officials, and representatives.

The insurance coverage and limits furnished by Consultant in no way limit the Consultant's liabilities and responsibilities specified within the Agreement or by law.

Any insurance or self-insurance programs maintained by the Commission, the City of Chicago, and/or any other User Agency or Owner do not contribute with insurance provided by the Consultant under the Agreement.

The required insurance to be carried is not limited by any limitations expressed in the indemnification language in this Agreement or any limitation placed on the indemnity in the Agreement given as a matter of law.

If Consultant is a joint venture or limited liability company, the insurance policies must name the joint venture or limited liability company as a named insured.

The Consultant must require all its subcontractors to provide the insurance required in this Agreement, or Consultant may provide the coverage for its subcontractors. All subcontractors are subject to the same insurance requirements of Consultant unless otherwise specified in this Agreement.

If Consultant or its subcontractors desire additional coverage, the party desiring the additional coverage is responsible for the acquisition and cost.

The Commission's Risk Management Department maintains the right to modify, delete, alter or change these requirements.

By executing this Agreement, Consultant acknowledges and agrees that Consultant is familiar with the contents of such Resolution and will comply fully with all applicable portions thereof in performing the Services.

4. **Engagement and Standards for Performing Services.**

- a. **Engagement.** The Commission hereby engages the Consultant, and the Consultant hereby accepts such engagement, to provide the Services described in this Agreement, as the same may be amended, in writing, from time to time by mutual agreement of the Commission and the Consultant.
- b. **Performance Standard.** The Consultant represents and agrees that the Services performed under this Agreement will proceed with efficiency, promptness and diligence and will be executed in a competent and thorough manner, in accordance with reasonable professional standards in the field consistent with that degree of skill and care ordinarily exercised by organizations providing Key Personnel performing services of a scope, purpose, and magnitude comparable with the Services to be performed under this Agreement. Any review, approval, acceptance or payment for any of the Services by the Commission does not relieve Consultant of its responsibility to render the Services and Deliverables with the professional skill and care and technical accuracy required by the Agreement. This provision in no way limits the Commission's rights against the Consultant, either under the Agreement, at law or in equity.

If any Services performed by Consultant fail to meet the above warranties, then without limiting any other remedies at law or in equity, Consultant shall promptly correct or re-perform any such affected Services at no cost to the Commission. Further, Consultant acknowledges that the Commission has entered or will enter into agreements with third party vendors to provide a third party data hosting site and a disaster recovery site. - f. **Records.** The Consultant shall maintain accurate and complete records of expenditures, costs and time incurred by Consultant in connection with the Project and the Services. Such records shall be maintained in accordance with recognized commercial accounting practices. The Commission may examine such records at Consultant's offices upon reasonable notice during normal business hours. - g. **OCDM System.** The Commission may require the Consultant to use the Commission's electronic document management system in performing the Services and the assigned Task Order. Provided the Consultant is not in default under this Agreement at the time of termination or suspension, the Commission agrees to pay to the Consultant, in accordance with the terms of this Agreement, all compensation and reimbursements due to the Consultant for periods up to the effective date of termination or suspension. In no event shall the Commission be liable to the Consultant for any loss, cost or damage which the Consultant or any other party may sustain by reason of the Commission terminating or suspending this Agreement as provided herein; provided, however, that the Commission may, in its sole discretion, reimburse the Consultant for actual expenses approved by the Commission.
